

# THE KELOWNA COURIER

AND OKANAGAN ORCHARDIST

VOLUME 22.

Kelowna, British Columbia, Thursday, June 2nd, 1927

NUMBER 42

## RUTLAND MAY GET ELECTRIC CURRENT

Populous Nature Of District May Permit Of Connection With City System

A special meeting of the City Council, held on Monday night, was attended by all the members.

Historical Pageant On July 1st

A letter was received from the Business Manager of the Canadian Historical Pageant, proposing to display a patriotic pageant in Kelowna in connection with the celebration of the Diamond Jubilee of Confederation on July 1st. The communication was referred to the Celebration Committee.

Cutting Grass On City Streets

An application was lodged by Mr. P. Jansen for permission to cut grass on number of streets, including Ethel Street and Glenn, Harvey, DeHart, Laurier, Borden, Wolseley and Sutherland Avenues.

The Mayor was of the opinion that any applicant for such a privilege should be required to cut all of the grass, not merely patches. In some previous instances where such permission had been given, the work had been done in a very patchy and unsatisfactory way.

The matter was left in the hands of Ald. Knowles, chairman of the Parks and Boulevards Committee, to lay down any requirements necessary.

Lease Of Old Ferry Wharf

A formal resolution was put through sanctioning signature by the Mayor and the City Clerk and attachment of the civic seal to a lease to the City from the Provincial Government of the old ferry wharf, at the nominal rent of \$1.00 per annum, for use as public wharfage.

By-Laws

By-Law No. 454, amending the electric power rates, was given reconsideration and final passage.

By-Law No. 455, selling Lots 23 and 24, Block 9, R.P. 1306, to Mr. Fortunato Dal Col, for the sum of \$200, was given three readings.

By-Law No. 456, repealing all previous By-Laws dealing with the water-

ing or filling of city streets and enacting a new scheme covering a larger area, was introduced and given three readings. It provides for the levy of a frontage tax of three cents per foot during the months of April, May, June, July, August and September upon the occupiers of all premises situated on both sides of Bernard Avenue, from Abbott Street to Ellis Street; and a frontage tax of two cents per foot during the same months upon the occupiers of all premises situated on both sides of Bernard Avenue, from Ellis Street to the eastern boundary of the municipality; on both sides of Lawrence Avenue, from Abbott Street to Ellis Street; on both sides of Eli Avenue and Harvey Avenue, from Abbott Street to the eastern boundary of the municipality; on both sides of Abbott Street, from Bernard Avenue to Park Avenue; on both sides of Water Street, from Cavston Avenue to Eli Avenue; on both sides of Pendozi Street, from Mill Avenue to the southern boundary of the municipality; on both sides of Ellis Street, from Clement Avenue to Eli Avenue; and on both sides of Richter Street, from Bernard Avenue to Mill Creek. Not more than fifty feet of the frontage of any property is to be taxed, unless any building thereon has a frontage exceeding fifty feet, in which case the actual frontage occupied by the building will be assessed. Buildings fronting on two streets will be assessed for frontage on both streets. Public school buildings and buildings set apart for the use of the public worship of God are exempted from the provisions of the By-Law.

The Mayor asked what would be the procedure in regard to collection of rates should sprinkling service not be given, on account of wet weather or other reasons, or only a partial service be carried out on some of the streets stated in the By-Law.

Superintendent Blackborough said his idea was that, if watering service was not given, no charge should be made against the premises concerned.

Shale For C.P.R. Property

Ald. Knowles reported that the C.P.R. had already effected great improvement in the appearance of their lakeshore frontage between the passenger wharf and the Westbank ferry wharf, and he asked if the Council would sanction the supply of some shale, which the railway company would have for use in making walks through the property. The company desired to meet the wishes of the Council in every way in laying out the frontage to the best advantage.

It was readily agreed to supply the necessary quantity of shale.

City Water For Cameron Subdivision

Several applicants for extension of the city water service to the Cameron subdivision in the northern portion of the city, appeared in person in connection with the matter, which they had followed up with resolute persistence for several weeks, attending several regular and committee meetings of the Council. They were able at last to guarantee the minimum of eight connections required by the Council before the work could be authorized, and they were informed that extension of the service would be started forthwith, on receiving which assurance they departed highly pleased with the successful termination of their efforts.

Streets To Be Oiled

Ald. Meikle, chairman of the Board of Works, reported that a commence-

## FESTIVAL SHOWS SURPLUS INSTEAD OF DEFICIT

April 27, 28, 29 Chosen As Tentative Dates for 1928 Event

A report given in our last issue of a special meeting of the Kelowna Parent-Teacher Association stated that the financial side of the Okanagan Valley Musical Competition Festival, recently held here, showed a small deficit. This statement was not correct, being founded on a misunderstanding of figures given out to the press which had nothing to do with the Festival itself but with the operations of the Parent-Teacher Association in connection with the catering, which unfortunately showed a small loss.

At a meeting of the Central Committee of the Festival, held last Thursday evening at the residence of the General Secretary, Mrs. H. W. Arbuckle, a report submitted by the Treasurer, Mrs. B. Lowery, showed that a substantial balance had been netted after settlement of all accounts.

Many letters of congratulation were read, also many suggestions received as to the handling of next year's Festival. The latter were fully discussed and such as were considered to be feasible were filed for further consideration at the next meeting of the General Committee, when representatives from various Okanagan points will be present.

April 27th, 28th and 29th were the dates fixed tentatively for the 1928 Festival.

Mrs. Arbuckle reported that she had received an invitation to attend the B.C. Musical Festival now progressing at Vancouver. She and Mr. Arbuckle left on Monday to take it in. They hope to gather much useful information while there.

This year the B.C. Festival is of greater interest than hitherto to local people owing to there being three entrants from this city, Misses Ruby Jolley and Phyllis Cook in the Open Piano-forte Class and Miss Isobel Murray in the Open Violin Class. There are six competitors in the former class and five in the latter.

ment would be made at an early date upon the work of oiling the streets destined to receive such treatment, while a lot of other work was also under consideration.

Electric Power For Rutland

Ald. Morrison, chairman of the Light and Water Committee, informed the Council that together with Supt. Blake, he had been interviewed by Messrs. T. M. Anderson and Dudgeon, as a deputation from the residents of the Rutland district, in regard to the possibility of obtaining extension of the city electric power system to Rutland for the supply of light and power.

At first sight, the project seemed to him impracticable on account of the length of the transmission line and cost of erection, but after examining the district to be served, the scheme took on a different aspect. About nine or ten miles of line would be required, along which already seventy-two connections were assured, and most of the residences were ideally situated as to supply from the line, the connections being so short in most cases that they would require only one span from the main.

While the City could not undertake extensions beyond the municipal boundaries, Messrs. Anderson and Dudgeon had a plan to form a company which would build its own distribution lines, buying current from the city and taking delivery at the city limits. The Superintendent and he had offered every assistance with their power in making estimates of construction costs and in supplying other details that might be helpful.

The Mayor suggested that, if Glenmore wanted to come in on the scheme, a loop line might be built which would cross the height of land between Glenmore and Rutland Station. He expressed surprise that a district so ideally situated as Rutland for power, with roads practically all constructed, schools built and no heavy outlays to face, had not followed the example of Glenmore and had incorporated as a municipality. It would then have been an easy matter to arrange for the purchase and supply of electric current as a portion of municipal service.

Ald. Morrison said that, while the people of Glenmore had already shown a desire to obtain electric current, the question of supply would not be so simple as in the Rutland district, for the reason that the residences in Glenmore were much more scattered, with the result that connections involving several poles would be required in a number of cases.

The other members of the Council all expressed themselves as strongly in favour of aiding Rutland in every way to secure the desired service of electric current, which would bring added comfort and convenience to the residents both in the matter of the lighting of houses and barns and the supply of power for pumping and operating separators and other farm machinery.

Provision of so many conveniences would render the district much more attractive residentially, with beneficial reaction upon Kelowna, and they hoped to see ultimately extension of power service to all parts of the surrounding country.

The Council adjourned until Monday, June 13th.

SIR HUGH JOHN MACDONALD HAS LEG AMPUTATED

WINNIPEG, June 2.—Sir Hugh John Macdonald was sitting up today having a smoke. His rapid revival following amputation of a leg yesterday is considered most remarkable, and for a man of seventy-seven he is displaying amazing vitality.

## SOVIET LEADER FORESEES WAR WITH BRITAIN

President Of Council Of People's Commissaries Declares Clash Of Arms Is Imminent

MOSCOW, June 2.—Alexis Rykoff, President of the Council of People's Commissaries, addressing a plenary session of the Moscow Soviet yesterday, declared that the British rupture with Russia was the prelude to war. The international situation, therefore, was pregnant with grave complications. The British Government, he asserted, wished to improve its position by provoking a war in which it hoped to play the leading part, leaving the dirty part of the work to other peoples, who, being thereby weakened, would be subordinated to Britain. To this danger the Soviet Union opposed a steady policy of peace.

Other outstanding points in the President's long speech were that the charges of the British Government against the Soviet Republic since 1921 had always been based upon forged documents, and that Great Britain had long been actively engaged in spying on the Soviet. A group of captured spies who had acted in the British interests were now in prison and one had been shot.

LONDON, June 2.—The Soviet representative at Peking states that a dispatch to the Daily Express has announced that Vladivostok is to be closed to British shipping, and that the Soviet Government has also forbidden the transportation of materials for the British-owned Lena gold mine on the railway across the Russo-Manchurian border. Eighty per cent of all the vessels calling at Vladivostok are said to be British.

LONDON, June 2.—Sir William Joynson Hicks, Home Secretary, in a statement to the House of Commons today regarding the conditions under which Russia will be permitted to trade in Britain, said that the British Government had no desire to place any difficulties in the way of trade between Russia and Great Britain.

Russians who desired to come to Britain for bona fide trading, he said, would be accorded the same facilities as the nationals of any other foreign power. The same machinery regarding visas and all other matters would apply as heretofore, except that there would not be a British passport control officer in Russia.

## BRITISH COLUMBIA PRODUCTS WEEK

Period From May 30th To June 4th Is Being Celebrated

"Buy B.C. Products Week" is being celebrated throughout the province this week, from May 30th to June 4th inclusive. Merchants are dressing their windows with goods produced in B.C., and consumers are being urged to patronize local manufacturers wherever possible.

The B.C. Products Bureau of the Vancouver Board of Trade urges, however, that the effort be confined to merely one week, but that it should be the aim of every citizen to give first preference to B.C. products, second to Canadian goods, and then to products of other parts of the British Empire, price and quality being satisfactory, throughout the entire year.

Factory products of the province have increased in volume from \$35,447,000 in 1900 to \$38,288,000 in 1905; to \$65,204,000 in 1910; to \$160,000,000 in 1920; and to \$225,000,000 in 1926. Given proper support and encouragement, our factories can easily increase this record of production and British Columbia can enjoy lasting prosperity.

## NOTHING DEFINITE AS TO NEW C.N.R. BOAT

Rumours having been current in town that the C.N.R. had abandoned the proposal to effect sweeping changes upon its housework of the "Pentowna," with a view to providing more adequate accommodation for passengers, and would build a speedy craft, relegating the "Pentowna" to freight work, the Courier made direct enquiry of Mr. A. J. Hughes, local C.N.R. agent, upon the subject, and was informed that no decision has yet been reached in the matter of additional transportation facilities upon Okanagan Lake.

## HOLIDAYING BANDIT ROBS SEATTLE BANK

SEATTLE, June 2.—A lone unmasked bandit, who told his victims that he was vacationing in Seattle after "bumping a man off in Chicago," interrupted his sojourn here just long enough on Wednesday to rob the Continental Mutual Savings Bank, at 1900 Fourth Avenue, of \$5,000 in currency and travellers' cheques in a daring daylight hold-up and made a successful get-away.

## B.C.'S MINERAL PRODUCTION BREAKS ALL PAST RECORDS

VICTORIA, June 2.—British Columbia's mineral production in 1926 surpassed all previous records in the history of the province, according to figures given in the annual report of the Provincial Department of Mines, just issued. The statistics indicate that, with a total output valued at \$67,188,842, gross profits approximating 25 per cent of the gross value and dividends of nearly \$10,000,000, the year was the most satisfactory and successful in the history of the province.

## ROUTE NOW OPEN TO CHUTE LAKE

Community Effort Accomplishes Wonders On Old Tote Road

The value of sturdy community effort was demonstrated effectively a few days ago when a valiant band of business and professional men took such unfamiliar implements as picks, shovels and axes into their lily-white hands and, under the redoubtable leadership of Mr. S. T. Elliott, made a formidable onslaught upon the various obstacles impeding use of the old railway tote road up the face of Mission Mountain to the Kettle Valley Railway and Chute Lake. The "gang" numbered between twenty and thirty, and such was the spirit with which they attacked their task that one day's work opened the road through to Chute Lake. Washouts were filled in, pole culverts built, fallen trees cleared away and boulders removed, with the result that the road is in fairly good shape up to the railway. Beyond that point there are several stretches of corduroy that will require reconstruction and the going is pretty rough, although Mr. Elliott took his six-cylinder Star through to the lake, while other cars stopped at the railway track.

Motorists who may be encouraged by reading the above to attempt the trip should take heed of the fact, however, that it would be an act of folly to try it except in a powerful car in the best of pulling condition and with brakes that are sure to hold. Some of the grades between the 2,000 and 3,500 foot levels are very severe, with short, steep pitches. From the point where the road crosses the power line, at the 3,500 foot level, the grade flattens out and is wonderfully easy all the way to the K.V.R., a distance of about three miles. The altitude at the railway is about 3,950 feet.

From Kelowna to Chute Lake the distance, according to the speedometer of Mr. Elliott's car, is 19 miles. From Kelowna, Haverfield's corner, where the climb begins, is approximately six miles, and from the first crossing of the K.V.R. to Chute Lake, four miles, so that the actual climb up Mission Mountain is nine miles long for a rise in altitude of about 2,800 feet.

The route offers many possibilities of improvement by diversion and relocation of some of the steepest sections, and at a comparatively low cost, but even the existing road can be made quite passable for powerful cars with only a trifling expenditure on grading, surfacing and cutting bushes which encroach on it. It is hoped to secure some funds from those who are willing to subscribe, while unable to put in any work themselves, sufficient to keep a couple of good men working for a few weeks, and all interested in the project should get in touch with Mr. H. V. Craig or Mr. E. W. Barton, Secretary of the Board of Trade.

Outstanding features of the route are the wonderful views to be obtained, free of impediment by intervening timber, extending beyond Vernon, and its safety, as there are no precipices, no dangerous curves or high bridges, while it can easily be converted into a through road to Pentiction, as a car from that point reached within half a mile of Chute Lake a few days ago.

## FINE SPECIMEN OF SHIPWRIGHT CRAFT

Beautiful Launch Completed At Local Boatbuilding Yard

Those who admire fine lines of boat construction should not miss the opportunity of inspecting at the premises of Mr. A. J. Jones, on Water Street North, a beautiful launch which he has completed recently to the order of Mr. Clifford Renfrew, of Rutland. It will be launched at an early date, when there will not be the same chance to study the details of the hull as now.

The boat measures 26 ft. in length by 6 1/2 ft. beam and is constructed throughout of Honduras mahogany, fastened with brass and copper screws. The lines are unique, being modelled on plans by John L. Hacker, one of the leading designers of fast boats. The finish is in the natural colour of the mahogany, and the fitting is as fine as cabinet work. All brass work has been made by hand by Mr. Jones and his assistants and does infinite credit to their workmanship.

Passenger accommodation is provided by a forward and an aft cockpit, with the engine space intervening. The forward cockpit contains one large upholstered seat for three and two individual seats, one of them for the navigator, who will have in front of him an automobile steering wheel, with controls conveniently arranged, and with the handle of the electric starter by his right side. The cockpit is protected by a sloping glass V windshield against spray. The rear cockpit has one seat for three and space for two chairs, so that ten in all can be carried with comfort.

Motive power is supplied by a 100 h.p. Kermath 6-cylinder engine, housed under an automobile type hood between the cockpits. At a speed of 2,000 revolutions and swinging a 15-inch propeller with 20-inch pitch, the engine is expected to drive the craft at a speed of 32 miles per hour. The same type of hull has been fitted with engines up to 400 h.p., and marvellous speed records have been made.

The value of the launch, complete, is \$5,000. It will be a notable addition to the mosquito fleet on Okanagan Lake and should show a clean pair of heels to everything in these waters.

## MARKETING CHIEF IS OPTIMISTIC

Mr. F. M. Black Finds No Antagonism On Prairies To Control Of Sales Legislation

Mr. F. M. Black, chairman of the Committee of Direction, accompanied by Mrs. Black and Miss Elma Black, arrived in the city on Monday and is at present staying at the Eldorado Arms. Since his arrival here, he, together with Mr. A. J. Finch and Mr. O. W. Hemblinger, other members of the Committee, has been kept very much occupied, as preliminary work of all kinds has had to be done. In fact the Committee has been in almost continuous session. Four rooms in the Casorso Block, Bernard Avenue, on the second story, have been selected as offices. Meanwhile, through the courtesy of Mr. H. F. Rees, the chambers of the Royal Bank of Canada have been placed at the Committee's disposal pending alteration and improvement of the permanent offices.

It is not generally known that Mr. Black is an old-timer of British Columbia who first came to the province in 1891 and lived west of the Rocky Mountains, principally at Vancouver and Nelson, until 1909. For several years the family resided at the latter city, Mr. Black owning one of the first fruit farms established in the Kootenay district, some three miles east of the city limits. It was there where he planted some of the first McIntosh apple trees ever planted in B. C., and he is proud of the fact that they bore well a time when the McIntosh apple was little known in other sections of the country and that he not only introduced the McIntosh apple to Vancouver but also encouraged the planting of the variety by others.

While resident at Nelson Mr. Black was accountant for Mr. P. Burns, and on that gentleman turning his business into an incorporated company, he has offered the position of treasurer of the company's head office at Calgary. This he accepted and shortly afterwards became assistant secretary and later on a director of the firm, with which he was identified until 1917. During his stay in the Albertan metropolis, Mr. Black was one of the members of the Public Utilities Commission for the Province of Alberta and in 1916-17 was President of the Calgary Board of Trade. Also during the Great War he was chairman of the Fruit and Vegetable Committee of the Food Control Board, of which the late Mr. W. J. Hannah was chairman. During his chairmanship of this committee Mr. R. Robertson, of the Okanagan United Growers, and Mr. G. E. McIntosh, the present Dominion Fruit Commissioner, were among its members.

While thus engaged in important public duties, Mr. Black was approached by the United Grain Growers to act as Treasurer of Manitoba, and, on his accepting the position, he was offered a seat in the Cabinet of that province. Representing the constituency of Rupert's Land, an immense territory in the northern portion of the province, noted chiefly for its mining and fishing industries, Mr. Black remained a member of the Manitoba Government until two years ago, when he resigned his cabinet position. During his tenure of office he placed the finances of the province on the sound basis on which they still stand, a task involving an immense amount of work. He is still a member of the Manitoba Legislature, but, as that body will shortly be dissolved, finds it unnecessary to resign his seat. He is also chairman of the Mining Bureau of the Winnipeg Board of Trade and a Vice-President of the Winnipeg St. Andrew's Society. However, any regret that he may feel at severing these associations and ties with the Prairies seems to find ample consolation in the joy of returning to British Columbia, as, during an interview accorded to a representative of The Courier, Mr. Black expressed the keen pleasure of himself and family in coming back to the province that was for many years their home and in which his children were born.

Regarding his new duties, Mr. Black stated that it should be borne in mind that the Committee of Direction was not a one-man body. His associates, Mr. Hemblinger and Mr. Finch, were men of much experience, accustomed to handling various problems connected with the fruit industry in a practical way. He had every possible reason to believe that not only would the members of the Committee work in entire harmony, but also that great good could be accomplished by their efforts this year. Their policy would be a reasonable one throughout, but when decisions were reached and regulations made, orders issued would have to be carried out. As regards the feeling in the "Prairie Provinces" towards the appointment of a Committee of Direction, he had personally interviewed a great many people before returning to the Okanagan, including most of the leading people connected with the fruit business, also the representatives of the press, and had found that there appeared to be no antagonism towards the legislation passed by the B. C. Legislature under which the Committee had been appointed. He therefore had strong hopes that even the first year's work of Mr. Hemblinger, Mr. Finch and himself would bring about good results.

Mr. Black hopes to secure a suitable residence here shortly, as other members of his family will come to stay with him and Mrs. Black next month. They are, Miss Margery Black, who is a supervising nurse at the Royal Provincial Jubilee Hospital, Victoria, and

## FORTHCOMING VISIT OF AUSTRALIAN NATIONAL BAND

Wonderful Aggregation Of Exceptionally Talented Musicians

Lovers of band music are looking forward with eager anticipation to the forthcoming visit of the Australian National Band to Kelowna on Friday, June 24th. Engagement of this superb aggregation of talented musicians, many of whom have won numerous awards as soloists, has been secured through the enterprise of the Board of Directors of the Kelowna Aquatic Association, Ltd., who have been encouraged by the large attendance on the occasion of the visit of the Band of the Coldstream Guards last August to undertake the heavy financial responsibility entailed.

The Australian National Band passed through Canada last December on their return home. Their trip was a hurried one, and they played only four engagements in Western cities, but they won golden opinions wherever they held concerts, and there was a widespread desire that they would make a more leisurely return tour before long and give some of the smaller communities an opportunity to listen to their marvellous command of their instruments. That desire is now to be gratified in a measure, as the Band has now returned to Canada. They will play in the Western Coast cities as far south as San Francisco, and will then return to Vancouver, proceeding thence to the Okanagan and then eastwards to fulfil engagements made with the Western Canada Association of Exhibitors.

It is doubtful if any band ever created such a furor or left such wonderful impressions as did the Australians on their recent world tour. From Melbourne to Capetown, to Madrid, to Paris, to Berlin, to London and Edinburgh, and thence to Montreal, Toronto, Rochester, Buffalo and west to Vancouver, in all these large centres they were lauded by press and public alike to such an extent that only one aggregate fact can be deduced, which is that they are undoubtedly not excelled in skill by any modern exponents of brass band music.

The wonderful versatility of the Australian National Band is evinced by the nature of their programmes, which display their ability to play jazz numbers with the easy manner and manipulation of the greatest American jazz bands, and at the same time to arrange in a pathetic and adequate rendition of the works of the greatest composers.

The Scout Hall has been secured for June 24th, and the seating accommodation will be arranged so as to provide, it is hoped, for all who wish to hear the Australians. Advertisements in subsequent issues of The Courier will give details.

## ORANGE ORGANIZATIONS PARADE TO CHURCH

Over Two Hundred And Thirty Members In Line Of March

On Sunday morning the members of York Lodge Orange Lodge, No. 1870, and Unity Lodge, No. 453, Ladies Orange Benevolent Association, and visiting brethren and sisters assembled at the Lodge Room, Bernard Avenue, and from there marched in full regalia to the First United Church, where they attended public worship. The procession was one of the longest church parades seen here for a considerable time, over two hundred and thirty members of the organization taking part in it. Bro. J. E. Stone, acting as marshal under the direction of Worshipful Master T. Pitt.

A large portion of the church had been reserved for the lodge members, who joined with devotion in the service, and Rev. A. K. McMinn preached a special sermon for the occasion, which was suitable and inspiring.

At the conclusion of the service the procession was dismissed again to private life, the lodge members visiting brethren and sisters from Vernon, Salmon Arm, Pentiction and Summerland were entertained to lunch.

The next Orange church parade to be held in this district will take place at Vernon on Sunday, June 12th.

The Twelfth of July celebration for this portion of the Interior this year will be held at Salmon Arm.

## BOXER CHARGED WITH DEATH OF OPPONENT

KANSAS CITY, Kan., June 2.—The preliminary hearing in the case of Sammy Mandell, light-weight boxing champion, was continued today until Tuesday next, pending investigation into the death of Steve Adams, who collapsed last night in the second round of a scheduled ten-round fight. Mandell is under a bond of \$5,000 on a charge of vagrancy.

Inspection of the ropes of the ring is to be made today to determine if improper construction could have caused the death of Adams by throwing him forward after Mandell sent a sharp left jab to his stomach. Ring-side fans told the authorities of instances where fighters have rebounded towards the centre of the ring when thrown against the ropes. Adams' neck was broken, according to the report of the physicians.

Miss Charlotte Black, who is a teacher in the Home Economics Department for the Vancouver School Board. His only son, Donald, is a medical missionary, who was stationed on the Island of Formosa, but who, with his wife and family, has been recently ordered to Manchuria.

## CELEBRATION PROGRAMME IS TAKING SHAPE

Committee Outlines Local Procedure In Commemoration Of Diamond Jubilee Of Confederation

The committee entrusted with arrangements for local commemoration of the Diamond Jubilee of Confederation met at the Board of Trade office last week and appointed the following as chairmen of sub-committees: Decorations, Mr. A. T. Teagold; Floats, Mr. H. Moore; Refreshments, Mrs. W. R. Foster; Music, Mr. Geo. S. McKenzie; Bonfire, Mr. J. B. Knowles; Chief Marshal, Mr. F. M. Blackland.

A number of organizations have already signified their intention of providing decorated floats, and there is every indication that the parade will be of outstanding interest.

A tentative programme for July 1st has been drawn up which provides for the parade leaving the School, on Richter Street, at 2 o'clock, headed by the Orchard City Band. It will consist of school children, each of whom will carry a Union Jack, followed by decorated floats emblematic of some period in the history of Canada since Confederation, and possibly decorated motor cars.

The line of march will be down Bernard Avenue to the City Park, where the children will be lined up at some suitable point to permit of the floats and cars passing through their ranks so as to give the little ones an opportunity to view them.

Distribution to the children of the special Jubilee Commemorative Medal, to be struck for the occasion, will follow, after which one or two brief speeches will be made and one or more patriotic songs will be rendered by the whole gathering. The formal proceedings will be short and the rest of the afternoon will be given over to general sports, bathing and other amusements. Parents are asked to arrange to have their children given the opportunity of having a basket picnic, which may be enjoyed in the Park to the music of the band.

Each child in the procession will be given a ticket entitling him or her to one ice cream cone free.

The Committee is arranging a special vocal and instrumental concert for the evening, to commence at 9 p.m., at which all citizens are invited to be present. This will also be held in the City Park.

The districts of East Kelowna, Okanagan Mission, Ellison, Rutland, Westbank, Winfield and Okanagan Centre have all been invited to attend and to bring the children to join in the celebration with the local kiddies.

Merchants in the business section are asked to make provision for a grand display of flags and bunting and to exert every effort to make the decorative effect as elaborate as possible.

The Committee wishes to emphasize that this commemoration is of especial interest to the children and that it is to be primarily a day for them, hence all good citizens are requested to concentrate on giving the little folk a grand day's outing which will impress upon them the glorious heritage they possess in this country of Canada and in its association in that great union of nations called the British Empire.

The members of the Committee are: Mayor D. W. Sutherland, Mr. Grote Stirling, M.P., Ald. D. H. Rattenbury, Mr. F. M. Blackland, Mrs. W. H. Gaddes, Mrs. F. R. E. DeHart, Mrs. W. R. Foster.

## U.S. MARINES PROCEED TO TIEN TSIN

SHANGHAI, June 2.—The Sixth and Tenth Regiments of United States Marines, commanded by Gen. Smedley Butler, sailed for North China this morning. It is planned that the ship will proceed to Taku Bar, whence the marines will be taken to Tien Tsin upon smaller vessels.

The United States cruiser Richmond, carrying a contingent of marines, also sailed for Tien Tsin today. Probably other warships will be sent north shortly. British and French contingents are to go north at once under an agreement reached for an international force to protect the Tien Tsin-Peking Railway.

## FALLS SEVENTY-FIVE FEET AND ESCAPES WITH SHOCK

GUELPH, Ont., June 2.—When the counterbalance of the elevator on which he was working as a local plant broke, James Flack was precipitated seventy-five feet down the shaft, but landed on his feet and received nothing more than a severe shock and cuts on his hands caused by his efforts to grasp the cable of the elevator.

## CORONACH WINS CORONATION CUP

EPSOM, England, June 2.—Lord Woolavington's four year old Coronach, last year's Derby winner, won the Coronation Cup this afternoon by one length from Embargo. Sir Abe Bailey's Fox Law, the only other horse in the race, finished eight lengths behind Embargo. The race was for a gold cup and about \$10,000.

## FORTY KILLED IN EUROPEAN STORM

AMSTERDAM, June 2.—Forty persons were killed, one hundred and fifty were injured and enormous damage was done by a cyclonic storm which swept over parts of Holland and Belgium yesterday.

## GIFTS THAT LAST

Delightful Gifts for the June Bride  
OUR NEW SILVERWARE

is very charming. New shipments just opened up. Cut Glass, Fine China and Mantle Clocks make very acceptable gifts. We have Flatware in Community Plate, Holmes & Edwards and Rogers 1847.

May 31st, 1927.  
Orders for week ending June 10th, 1927:

Duties: Orderly Patrol for week, Otters; next for duty, Cougars.

Rallies: The Troop will rally at the Scout Hall on Thursday, the 2nd inst., at 8 p.m., on Friday, the 3rd inst., at 8 p.m., and on Saturday, the 4th inst., at 2:30 p.m. and at 8 p.m., full uniforms to be worn on each rally. Patrol Leaders and Seconds will rally at the Scout Hall fifteen minutes previous to all of the above times and in addition on Friday morning, the 3rd inst., at 8:30 a.m. If for any reason a Patrol Leader or Second is unable to attend at any of the above times he must secure a substitute for himself from his Patrol.

The Thursday rally for the Troop is for the purpose of having a full dress rehearsal of our Show and the Friday and Saturday ones, of course, the Show itself. We plan to have the annual Troop photograph taken after the Saturday matinee with the Scouts mounted on and around the Signal Tower, the erection of which is one of the items for our Show.

We issued invitations to all of the Troops in the Okanagan North District to attend the Saturday evening performance, after which our Ladies Auxiliary have most kindly offered to give us a supper of coffee and cake. The Vernon and Winfield Troops are unable to attend but the Rutland and Benvenuto Troops will be present and we have not yet heard from the others, Westbank, Oyama and Armstrong. The East Kelowna and Okanagan Mission Patrols are of course included in this invitation and Scouts and Cubs in uniform are welcome to attend any of our performances.

Mr. J. W. Jones, M.L.A., has kindly consented to make the presentations, which will include the Gilt Cross to A.S.M. Elwyn Williams, previously mentioned in this Column, and the 1st Class Badge and All Round Cords, Grade "A", to P.L. Wm. Lucas, to whom we extend our heartiest congratulations. S.M.s Motley and Crooks have been of great assistance in taking tests lately which otherwise we simply could not have had taken in this last minute rush.

One of the star turns at our Show will be the Revue by the Old Scouts' Club at the evening performances only. The Cubs are not appearing on the programme this year but are holding themselves in leash for their own entertainment, which will be held about one month later.

We welcome to the Troop P.L. Ralph Buckley, 1st Class Scout, from the 10th Calgary Troop, who has moved to Kelowna with his family, and two of whose brothers are Wolf Cubs.

### WOLF CUB NOTES

1st Kelowna Pack  
Parade, Wednesday evenings, 7.00 o'clock.

Until further notice, the Cubs of the 2nd Kelowna Pack will attend this parade.

The Cubs are now hard at work, getting ready for their annual Display, on July 2nd. An Indian play is in rehearsal, and Mrs. Motley, late C.M. of the Bonington Pack, is helping with the Jungle Dances.

East Kelowna and Okanagan Mission Packs

Meet on Friday, June 3rd, at 11 o'clock, at the junction of Pendozi St. and K.L.O. Road. Bring lunch. All try to be present and wear your equipment.

C. E. DAVIS, Cubmaster.

Plans for a gigantic waterpower development to be undertaken by the West Kootenay Power and Light Company, Ltd., will shortly be given official consideration. The scheme involves the control of the level of Kootenay Lake and the placing of a large dam across the Kootenay River at Granite Creek.

As the plan outlined in the application would affect the whole of the Kootenay waters on both sides of the international line, the entire project will eventually be referred to an international commission, as outlined in treaty agreements between the United States and Canada.

### CONTROL OF THE CABBAGE FLEA-BEETLE

The cabbage flea-beetle causes a great deal of damage to cruciferous crops in British Columbia, especially in the Lower Fraser valley. It belongs to a group of small, very active, leaf-eating beetles, which have the hind legs developed in such a way that they are able to jump somewhat after the manner of fleas. As distinctive from other flea-beetles, the cabbage flea-beetle is shining metallic-green in colour and one-eighth of an inch long. Its favorite host plants are turnips and radishes, and it also attacks cabbage, cauliflower, kale and Brussels sprouts.

A new pamphlet, on "The Cabbage Flea-Beetle and Its Control in British Columbia," issued by the Dominion Department of Agriculture, gives detailed instructions for the control of this insect. The usual remedies, including various deterrents and stomach poisons, have been found ineffective. The efficient remedy is nicotine used at a strength of three per cent. This substance is easily and cheaply applied but, as the application of dusts is not commonly well understood, the necessary information is presented in the new pamphlet which may be obtained free from the Publications Branch, Department of Agriculture, Ottawa.

To prepare fifty pounds of three per cent dust, three and three-quarter pounds of forty per cent nicotine sulphate should be added to fifty pounds of hydrated lime. The dust may be purchased in cans ready for use, or mixed at home in the manner described in the pamphlet. The dusting should be performed on a sunny day when the temperature is seventy degrees or over. Three applications in the spring and one or two in August ought to keep the beetles down to negligible numbers. One acre of turnips, or similar crop requires from 16 to 30 pounds of dust and costs from \$1.75 to \$3.30 for material. The labour cost is trifling.

Vancouver's boulevards or "through" streets will soon be marked adequately at every intersection, according to an announcement made by Chief of Police Long and Inspector Hood, who stated that special signs, consisting of raised metal discs bearing a red reflector and the admonition "stop," would be placed on the pavement at every intersection on such streets, so far as civic appropriations will allow.

### FASHION FANCIES

Deep Rose Satin And Black Net Make A Striking Dance Frock

Black and rose makes a striking evening colour combination, either for the young girl or the older woman.

In the frock above, the design is primarily for a young person, for the fitted bodice and befitting skirt fit the youthful figure better. The V-fold of net at the front of the bodice, is repeated in the back, and the flower is of two shades of rose velvet.

This would also be smart in black net with white taffeta, or in darker green taffeta with lighter green net.

The Judge—"So your name's Joshua, eh? You're not the Joshua that commanded the sun to stand still, are you?" Eben Holden—"Lor, no, Judge. Ah'm de man dat made de moonshine!"

## 1ST RUTLAND TROOP

"Do A Good Turn Daily"

Orders for the week ending June 11th:

The Troop will parade on the School field on Thursday, at 7:30 p.m. sharp. Duty Patrol: Seals.

There was a small attendance at last Friday's meeting. The programme consisted of physical drill, practice for 3rd of June races, passing of various Second Class tests, followed by some boxing bouts.

It was decided to attend the Kelowna Scouts' concert on Saturday evening, June 4th. Offers of transportation will be much appreciated.

### Patrol Competition Standing

	Points
Seals	498
Kangaroos	467
Foxes	254

Tests passed recently: Farmer's proficiency badge, Scout K. Bond (Kangaroos). Second Class Compass test, Scout K. Yamaoka (Seals).

A. W. GRAY, Scoutmaster

### THE WORLD'S POULTRY CONGRESS TO DATE

The organizing of the World's Poultry Congress, to be held in Ottawa, July 27 to Aug. 4, 1927, began shortly after the close of the Congress held in Spain in 1924.

Early in 1925 the Congress Executive and the Canadian Congress Committee were appointed and Provincial Congress Committees were formed. The Federal Minister of Agriculture is Honorary Chairman of the Canadian Committee and the Minister of Agriculture in each Province is Chairman of the Provincial Committee.

The invitations were sent out in January, 1926. At the present time 30 countries have signified their intention of sending delegates, and a number of them exhibits.

The sessions of the programme will be held in the Auditorium, and outside of official and public Congress meetings there will be five different sections operating simultaneously from half-past nine to half-past twelve each forenoon.

The exhibits will be staged in the Exhibition Buildings at Lansdowne Park, which will be open from one p.m. to eleven p.m. The display of exhibits will be the finest and most comprehensive that has ever been given in Canada and, although the chief feature will be poultry, the exhibits will be of such a varied nature as to be of interest to every person.

Membership is by registration and the payment of the fee, which is five dollars for regular members and three for associate members. The regular members receive a copy of the printed report of proceedings, and all are entitled to attend meetings, exhibits and functions.

There will be special rates for those who come by train, and good parking and camping for motorists. Accommodation is being arranged at reasonable rates for all. Information can be secured from your Provincial Committee or from the Executive at Ottawa.

F. C. ELFDON,

Director General of the Congress.

## PUBLIC NOTICE

Notice is hereby given in accordance with the provisions of Section 2, 4A, (1) and (2) of the "Grazing Act Amendment Act," being Chapter 14 of the Statutes of British Columbia, 1925, that all horses, branded or unbranded, and owned or claimed by any person or persons, must be removed from the Crown ranges of the Vernon Grazing District on or before June 10th, 1927, and must not be returned to the said Crown ranges during the period June 10th and December 31st, 1927, except under grazing permit issued in accordance with the provisions of the "Grazing Act," being Chapter 100, R.S.B.C., 1924. Stallions are not allowed upon open ranges, either Crown or private, at any period of the year.

THOS. P. MACKENZIE, Commissioner of Grazing.  
Dated at Victoria, May 2, 1927. 39-4c

## WATCH FOR DISEASE IN THE APIARY

(Experimental Farms Note)  
American foul-brood is responsible for more losses in beekeeping than any other single factor. Not only does it destroy bees, but crops are reduced and equipment is lost because of it. Its seriousness lies in the fact that the cause of the disease may live for many years in any infected material and may bring about a return of the disease at any time unless the material is thoroughly disinfected or destroyed. Once a colony becomes infected, its powers of production are soon lowered; it becomes weaker and weaker and finally dies. Moreover, such a colony is easy prey for robber bees and may become the source of infection for every other colony in the district.

While the various provincial departments employ a number of apiary inspectors, it is impossible for these men to examine every colony during any one season, therefore, every beekeeper should, to a certain extent, become his own inspector and be on the watch for disease at every examination of his colonies. While it may be true that many beekeepers are unable to distinguish disease, most of them know the appearance of healthy brood and are able to tell if any abnormality is present. In such cases, a piece of comb, about two inches square and containing some of the abnormal brood, should be packed in a cardboard box and sent to the Provincial Apiarist or to the Bee Division, Central Experimental Farm, Ottawa, where a diagnosis of it will be made free of charge.

As soon as the weather becomes warm enough in the spring so that a colony may be kept open for a short time without chilling the brood, examine the combs carefully for disease. As there are comparatively few bees in the hive at this time of the year, any abnormality of the brood can be detected much easier than later in the season. Watch for it at every examination and for further particulars write to the Bee Division at Ottawa.

C. B. GOODERHAM, Dominion Apiarist.

## THEY DO DIE

"You look tired."  
"Yes, I've had a bad day. That office boy of mine came in with the old story of getting away for his grandmother's funeral, so just to teach him a lesson I said that I would accompany him."  
"He took you to the football game, I suppose?"  
"No such luck. It was his grandmother's funeral."—Tit Bits.

## GLENMORE

Mr. Shankland came in from the Bench last week with his spray machine and has been kept busy ever since.

Mr. R. Seath returned from the Coast at the end of the week.

Our sympathy is extended to the Clarke family of Ellison in its trouble. Mr. A. J. Clarke received serious injuries on Monday in a fall of 35 feet from a roof. Miss Edna Clarke is known to many here as she was with Mr. Cushing's family for several months last year.

The Okanagan Telephone Co. are busy putting up new poles and wires for the direct line to Vernon.

Ranchers are co-operating strongly in spraying. Every effort is being made to keep the orchards clear. Lead spray has been applied unsparingly.

Water users will be interested in the following news. No. 1 dam now stands at 24.9 feet and No. 2 at 14.5 feet. It is likely that No. 1 will rise to between 26 and 27 feet, the maximum being 29 feet. The maximum height obtained in 1926 was 23.2 feet on June 4th, and in 1925 27.35 feet on June 17th. The creek is steadily dropping, and the allowance from now on will be on the 1 1/2 acre foot basis. Failing rain, we will have to start using some storage water in about a week's time.

Owners of spray machines will please note that it is contrary to regulation to attach from pipe to irrigation water connections. Machines must be filled by means of a hose. In attaching hose, the short vertical nipple may be swung up, but the horizontal pipe must not be swung out of position.

This regulation will be rigidly enforced as the practice of attaching from pipe to these connections and swinging the horizontal pipe loosens them in the wooden pipes, resulting in blow outs, with the consequent interruption of service and the cost of resetting.

## PROPER RATE OF AUTOMOBILE SPEED

Accidents Are Caused Occasionally By Too Slow Driving

"Driving too slowly may sometimes become as offensive as the other extreme, commonly known as speeding; and, although the majority of highway accidents can be attributed generally to the latter, there are some cases in which a driver, by failing to adopt the pace set by other traffic proceeding in the same direction, may become involved in a serious accident by encouraging another motorist to overtake him under dangerous conditions." This is the contention of the service bureau of the Automobile Club of British Columbia, in a recent contribution to the "Safety Education" campaign which the club is conducting.

"Dragging along a straight section of highway that is free from intersections is, in a certain sense, similar to parking on the highway; for, in either case, the offending car may constitute an obstruction to traffic," the statement asserts. "With heavy traffic in both directions travelling at approximately the legal rate, a car proceeding at a lesser rate of speed either delays an entire caravan of cars or compels each driver, in turn, to attempt to squeeze through. If the road is narrow, as most of our highways are, and there are many cars approaching, the danger of crashes involving as many as three cars is intense."

"In any event," the club statement concludes, "the best policy to pursue in travelling along the open road is to adopt a speed not less than the legal rate of thirty miles an hour. Overtaking by another motorist will not then be necessary, and, if it should be successfully attempted, the responsibility for the consequences will be on the impatient one."

The Automobile Club of British Columbia, in making these observations, emphasizes that the conclusion drawn in this phase of driving from curves, intersections, roadside school houses and other factors qualifying general provisions for safe driving.

It has at last been decided to operate B.C.'s "White Elephant," the P. G. E. Railway, as an inter-urban line rather than as a railway system several hundred miles in length. Henceforth the communities on the north shore of Burrard Inlet and English Bay will be able to use the line as a means of cheap and quick transportation and it is generally hoped and expected that this new policy of the Board of Directors will result in the railway commencing to bring in fair returns.

## PREVENT FOREST FIRES YOU CAN HELP

150-527-8185

42-4c

A party of Dominion Government archaeologists recently made an important find at an ancient Indian village not far from Hazelton. It consists of an Indian stone mirror, made out of a very thin slab of black stone, one end of which is narrow for the handle. The other end has its flat surface highly polished and when wetted this surface reflects so clearly that even the colour of the reflected objects can be seen quite well. Such mirrors are now very rare and the specimen was at once purchased for the National Museum, Ottawa.

## SALE OF GOVERNMENT PLANT KELOWNA

Quotations will be received by the undersigned up till Noon, Monday, June 13th, 1927, for the purchase separately of a GIANT TRUCK and a FORD TRUCK, which can be seen on application to General Foreman Elliott, Kelowna.

The highest or any quotation not necessarily accepted.

JAMES PATERSON, Purchasing Agent.

## Thirteen Browns Go West

Mr. and Mrs. Brown with their eleven children, photographed on board the Cunard liner Ansonia, from which they disembarked at Quebec recently. The thirteen Browns are going to take up land in the West and are enthusiastic over the prospects for their future. It is Mr. Brown's proud boast that none of his family has ever required the doctor's help, and their ruddy faces and keen eyes indicate their magnificent health and good spirits.

## Salesman Wanted

I want a salesman who has  
confidence in his own ability to  
do real selling—young married  
man preferred who has ambition  
and desire to succeed; one who  
can fit into a real sales organiza-  
tion where initiative and ability  
will be appreciated and paid for.

This is projected selling on  
liberal commission basis. Do not  
apply unless you are prepared to  
devote your entire time to the  
work. This is a real opportunity  
for a real man.

Apply Box 705, Courier.

IN most homes the old  
guess-work baking days  
have gone, never to return.  
Then it was a matter of anx-  
ious conjecture as to whether  
or not that batch of bread  
would rise properly. All of  
our baking is a scientific suc-  
cess. Our bread should be  
one of your standard family  
foods.

## THE KELOWNA COURIER AND Okanagan Orchardist.

Owned and Edited by  
G. C. ROSE

### SUBSCRIPTION RATES

(Strictly in Advance)  
To any address in the British Empire, \$2.50  
per year. To the United States and other  
foreign countries, \$5.00 per year.  
The COURIER does not necessarily endorse  
the sentiments of any contributed article.  
To ensure acceptance, all manuscript should be  
legibly written on one side of the paper  
only. Typewritten copy is preferred.  
Letters to the editor will not be accepted for  
publication over a "from do please"; the writ-  
er's correct name must be appended.

Contributed matter received after Tuesday night  
will not be published until the following week.

### ADVERTISING RATES

Contract advertisers will please note that their  
contract calls for delivery of all changes of  
advertisement to The Courier Office by Mon-  
day night. This rule is in the mutual inter-  
ests of patrons and publisher, to avoid con-  
gestion on Wednesday and Thursday and  
consequent night work, and to facilitate pub-  
lication of The Courier on time. Changes of  
contract advertisements will be accepted on  
Tuesday as an accommodation to an adver-  
tiser confronted with an emergency, but on  
no account on Wednesday for the following  
day's issue.

Transient and Contract Advertisements—Rates  
quoted on application.

Legal and Municipal Advertising—First inser-  
tion, 10 cents per line, each subsequent in-  
sertion, 10 cents per line.

Classified Advertisements—Such as For Sale,  
Lost, Found, Wanted, etc., under the heading  
"Want Ads." First insertion, 10 cents per  
line, each additional insertion, without change  
of matter, 10 cents per line. Minimum charge  
per week, 30 cents. Count five words to  
one line.

Each initial and group of not more than five  
figures counts as a word.

If so desired, advertisers may have replicas  
addressed to a box number, care of The  
Courier, and forwarded to their private ad-  
dress, or delivered on call at office. For this  
service, add 10 cents to cover postage or  
mailing.

THURSDAY, JUNE 2nd, 1927

### POOR LOSERS

Out of the night that covers me,  
Black as the Pit from pole to pole,  
I thank whatever gods may be  
For my unconquerable soul.

In the fell clutch of circumstance  
I have not winced or cried aloud.

Under the bludgeoning of chance  
My head is bloody but unbowed.

Beyond this place of wrath and tears  
Looms but the Horror of the shade,

And all the menace of the years  
Finds, and shall find, me unafraid.

It matters not how straight the gate,  
How charged with punishments the scroll,

I am the master of my fate;  
I am the captain of my soul.

When W. E. Henley penned these  
noble lines he expressed in succinct  
form all the measure of contempt that  
the world at large holds for a poor  
loser. The vanquished one, whether  
in fair sport or any other branch of  
activity, who whimpers that he has not  
had a square deal and casts reflections  
upon his successful opponent, generally  
achieves little else than a storm of  
derision, which shows that, generally  
speaking, the heart of the great public  
is sound.

Throughout the history of the past  
thirty-five years the people of Kelowna  
have become accustomed to disappoint-  
ments and to see legitimate aspirations  
frustrated, and they have steelled them-  
selves to meet conditions as cheerfully  
as possible, despite the lack of many  
ordinary things enjoyed by towns of  
smaller population and less natural ad-  
vantages. Railway connection, which  
seemed imminent fourteen years ago,  
took twelve years for accomplishment;  
public buildings promised an equally  
long time ago have not yet materialized;  
industries that contemplated locat-  
ing here have gone elsewhere, and the  
town in general seemed to profit com-  
paratively little from being the centre  
of one of the largest, most fertile and  
most beautiful areas of agricultural  
land in the Interior of the Province.

Yet, in spite of the long, hard years,  
the people of Kelowna have earned a  
reputation for cheerfulness and opti-  
mism. They have been good losers, and  
it is only reasonable to suppose that  
their more fortunate neighbours would  
rejoice in the change of circumstances  
brought about principally through di-  
rect rail connection and better transpor-  
tation facilities.

It comes as a distinct shock, then,  
to learn that the people of Vernon, as  
represented by their Board of Trade,  
have lodged a remonstrance with Mr.  
F. M. Black, chairman of the Commit-  
tee of Direction, urging him not to  
make a decision in favour of Kelowna  
as the location of the headquarters of  
the Committee until an opportunity had  
been given to show the superior ad-  
vantages of Vernon. This places Ver-  
non in the category of poor losers. It  
would have been infinitely more grace-  
ful and would have gone far to allay  
the local jealousies which disfigure re-  
lations between the chief Okanagan  
centres if Vernon had submitted as loy-  
ally and cheerfully to the Committee's  
decision as Kelowna did in 1923, when  
the centre of the movement for wider  
co-operation in fruit marketing, initi-  
ated at Kelowna and carried to a head  
largely through hard, slogging work by  
Kelowna men, was located at Vernon.

There were undoubtedly heartburnings  
in Kelowna at the time, for it was felt  
that the city had superior claims, not  
only as the birthplace of the movement  
but because of its geographical situa-  
tion in the centre of the district pro-  
ducing the largest tonnage of fruit and  
vegetables in the Okanagan, and for  
the sound tactical reason that the best  
results would be achieved by establish-  
ing the headquarters of the Associated  
Growers at the same point where most  
of the independent shippers were lo-  
cated, but there was no attempt made to

upset the decision and thus create an-  
tagonism and bitter local feeling. It  
was realized, that, after all, it was not  
so much the location of the headquar-  
ters that mattered as the success of the  
movement, which could be achieved  
only by securing as large a measure as  
possible of harmony and co-operation  
between the various districts of the  
Okanagan.

The same course should now be fol-  
lowed by Vernon that was pursued by  
Kelowna in 1923. The Committee of  
Direction has seen fit to locate in Ke-  
lowna, and its decision should be ac-  
cepted without cavil and every effort  
should be made to crown its work with  
such success that every fruit and vege-  
table grower in the Okanagan may get  
a share of prosperity long deferred by  
internecine strife in the horticultural  
industry.

### FROST DAMAGE TO BRITISH FRUIT CROP

Principal Horticultural Districts All  
Suffer Injury

Severe damage by frost to fruit and  
vegetables in the principal horticultur-  
al districts of England was reported at  
the end of April, and a reader has now  
kindly forwarded us particulars in the  
subjoined clipping from an English  
paper, which will give some idea of  
how widespread was the injury.

Cheshire.—Ten degrees of frost were  
experienced in some parts of Cheshire,  
and hundreds of acres of potatoes were  
badly affected. Peas and bush fruit  
were nipped, and it is feared that the  
effect on the stone fruit blossom will  
be serious indeed.

Yorkshire.—Hundreds of acres of  
potatoes in the East and West Ridings  
were touched by the frost, and the  
crops of "earlies" have been put back at  
least three weeks. Pear and plum blossom  
were also badly affected, while the  
gooseberries which had formed on the  
bushes were turned black and fell off.

Apple blossom, fortunately, is later  
than usual, and a good crop appears  
probable if there are no more frosts.

Cambridgeshire.—Twelve degrees of  
frost were registered at Cambridge for  
the second time within four days, and  
great damage was done in the orchards.  
The apple crop will be seriously affected,  
even where the trees were not in  
full blossom. Pear and plum trees  
have been stripped of blossom or tiny  
fruits, and strawberry plants blackened.  
Peas, bush fruit, and potatoes were  
withered.

Worcestershire.—The plum crop  
which up to a day or two ago showed  
every prospect of being a bumper one,  
is now likely to be extremely poor as a  
result of the severe night frosts. Six-  
teen degrees were experienced in some  
parts of the county. Calamity has fallen  
on Evesham, for not only has the  
plum crop gone, but the asparagus and  
early potatoes also. Pears have also  
suffered.

Herefordshire.—Fruit growers in  
Herefordshire, who a little more than  
a week ago were rubbing their hands  
with satisfaction, so great was the prom-  
ise of bumper crops, have had their  
hopes dashed by the severe frosts.

There were thirteen degrees in some  
places. One grower alone puts his loss  
at £4,000. Strawberries, pears, plums,  
and early apples are most affected.

Hampshire.—The Hampshire straw-  
berry crop has been severely damaged.  
The ground was frozen on three suc-  
cessive nights, and thousands of plants  
which previously looked most promis-  
ing were destroyed.

Somerset.—Orchards in exposed  
places have been seriously damaged and  
early potatoes have been cut down.

Norfolk.—Plum blossom in Norfolk  
has been badly nipped, and potatoes  
and currant crops have suffered severely.  
Apple blossom was not sufficient-  
ly forward to be much affected.

### HAROLD LLOYD ADDS TO LONG LIST OF SUCCESSSES

"The Kid Brother" Celebrates Fifth  
Year Of Comedian As Producer

Harold Lloyd celebrates his fifth  
year as a producer of feature length  
comedies by giving his legion of fol-  
lowers "The Kid Brother," which ranks  
high amongst his finest productions.

In this work, which appears at the  
Empress Theatre on Friday and Satur-  
day, June 3rd and 4th, as in all past  
productions, Lloyd again demonstrates  
his complete grasp of the answer to  
that eternal problem, "What does the  
public want?" If past successes count  
for aught, the bespectacled comedian  
knows exactly what his public demands,  
because in the five years that have elap-  
sed since that immortal classic, "Grandma's Boy," he has made one  
continuous string of triumphs.

Lloyd holds the unique distinction,  
according to those who have followed  
box office figures for the last decade,  
of being the only player in motion pic-  
tures who has never produced a finan-  
cial "blower," either for himself or the  
exhibitor.

In "The Kid Brother," Harold's lat-  
est Paramount release, he is said to  
have another of those sure-fire laugh  
getters, reminiscent in theme of "Grand-  
ma's Boy" with its inferiority complex  
story. If it were only half as good as  
that production, it would still be a  
knock-out.

Lloyd's five year record is one which  
defies comparison from any source.  
Starting with "Grandma's Boy," he  
produced "Dr. Jack," "Safety Last,"  
"Why Worry?" "Girl Shy," "Hot Wa-  
ter," "The Freshman" and "For Heav-  
en's Sake." For the last three years,  
beginning with "Girl Shy," he has been  
producing independently.

Basically, Lloyd's success in the fea-  
ture comedy field may be summed up  
in his own few words: "Make them  
funny, but keep them human." He led  
the way out of the rut of old comedy  
humor by giving the screen stories  
that had logic and reason, not just a  
hodge-podge of slapstick.

## GIRL GUIDE NOTES

There will be no regular meeting un-  
til June 28th, when a full attendance of  
all ranks will be required, as this will  
be the last meeting before our camp  
and the 1st of July Celebration in which  
the Guides are to take part.

Recruit P. Motley has been enrolled,  
and Recruit Gwen Patterson has passed  
her Tenderfoot examination.

A number of Guides have passed ad-  
ditional Second Class tests. These are:  
skipping, Helen Geen, Norah Hubbard,  
Doris Leathley, Margery Patterson,  
Phyllis Motley, Gwen Patterson and  
Mary Barton; physical exercises, F.  
McCarthy, D. Leathley, M. Patterson,  
N. Benmore and J. Chapman; fire mak-  
ing, J. Chapman and M. Patterson;  
bed making, M. Patterson.

Although there will be no regular  
parades, the Captain will be prepared to  
pass any Guides in various tests from  
4 to 5.30 p.m. on Mondays.

Within the past twelve years this  
province has paid over \$200,000 for  
buildings used for the care of children,  
and various organizations plan a fur-  
ther expenditure of approximately \$400,-  
000 for new structures in which indig-  
ent and sick children can find homes.

However, at the sixth Canadian Child  
Welfare Conference, held recently at  
Vancouver, the opinion was freely ex-  
pressed that practically nothing in the  
way of field service to keep children  
out of charitable and public institutions  
had been accomplished in B.C., also  
that a survey of the province showed  
that there was no necessity at the pre-  
sent time for the proposed new build-  
ings.

### SAFETY FIRST ADVICE

Screen your open fire-grate in the  
winter, swat the flies in the summer,  
look and listen at grate crossings, don't  
start the kitchen range fire with ker-  
osene, keep your nose out of other  
people's business and maybe you'll live  
long enough to be run over by a drunk-  
en joy-riider.

## McTAVISH & WHILLIS LIMITED

### INSURANCE

FIRE LIFE ACCIDENT  
STEAMSHIP PASSENGER AGENTS.  
BONDS - - - Dominion, Municipal, Industrial.

The old negroess viewed with misgiv-  
ing the large amount of sugar cane be-  
ing eaten by her six-year-old grandson.  
Eventually she warned the boy:  
"Chile, chile, ain't I tol' you time an'  
agin' that you 'se eatin' too much cane?  
Don't you know, chile, cane killed  
Abel?"—Tit Bits.

The new motor speed limit in the  
State of Washington, according to in-  
formation received by the Automobile  
Club of British Columbia, is forty miles  
an hour. Amended from thirty-five  
miles an hour, the new regulation will  
go into effect next month.

Rastus—"Nigger, ah sho does believe  
in dis evolution theory; you sho does  
look like you 'volved from a monkey."  
Brown—"Nigger, ah believes in evolu-  
tion, too, an' nigger, you looks liked  
you ain't 'volved yet."

Mr. W. H. Bonnycastle, consulting  
engineer for the British Columbia Elec-  
tric Railway Company, Ltd., is autho-  
rized for the statement that the devel-  
opment of the water power of the  
Bridge River, now being undertaken by  
that company, is the largest single de-

velopment of its kind on the North  
American Continent. Fully 750,000 h.p.  
will be ultimately obtained there, a  
force greater than the total of the  
plants established near Niagara Falls.

A mat factory is to be established at  
Victoria by a company recently incor-  
porated, and, it is expected that this  
new industry will be a very successful  
one. Old motor tires will be bought  
up and converted into mats suitable for  
hotel lobbies, restaurants, business of-  
fices, etc.

### FEARLESS

Lady Passenger: "Could I see the  
captain?"  
First Mate: "He's forward, Miss."  
Lady Passenger: "I'm not afraid.  
I've been out with college boys."

### LARGE ORDER

Edison, with all his inventions, was  
a piker compared to the ambitious  
young photographer who advertised:  
"Your baby, if you have one, can be  
enlarged, tinted and framed for \$8.75."  
—Hardware Age.

## HAROLD HODG THE KID BROTHER

EMPRESS THEATRE Friday and Saturday JUNE 3rd and 4th

## Local and Personal

Mr. F. Peters, of Grindrod, is registered at the Lakeview.

Capt. E. B. Loyd is a patient at the Kelowna General Hospital.

Mr. and Mrs. A. H. Drayton, of Calgary, are staying at the Palace.

Miss Dorothy Bell Irving, of Vancouver, is the guest of Capt. and Mrs. C. R. Bull.

Mr. J. E. Byrd, of Merritt, who was staying at the Lakeview, returned home yesterday.

Mr. and Mrs. F. W. Clarke, of Calgary, who were guests at the Palace, left for home yesterday.

Mr. R. E. Berry, of Vancouver, proprietor of the Empress Theatre, paid a visit to town yesterday.

The C.P.R. repair barge is moored north of the passenger wharf, to which repairs are now being made.

Dr. R. E. McKeechie, of Vancouver, who spent the week-end here, travelled on to Penitence on Monday.

Mr. S. C. Burnham, C.P.R. Telegraph Agent, Ashcroft, is visiting his parents, Mr. and Mrs. J. Burnham.

The new office building of the Kelowna Sawmill Company Ltd., Bernard Avenue, is nearing completion.

A fine new residence for Rev. Father Verbeke is being erected adjoining the Church of the Immaculate Conception.

Mr. and Mrs. C. E. Blackwell and party, of Okanagan, Wash., who were staying at the Palace, motored home on Saturday.

Mrs. Reginald Chowne and Miss F. Verchere, who made a prolonged stay at the Eldorado Arms, left for Vancouver on Tuesday.

Tomorrow being the King's Birthday and therefore a Dominion holiday, all stores and offices in town will be closed for the day.

Mr. H. J. Waldron, who for some time past was confined to his home through illness, is now able to attend to business again.

Mr. and Mrs. R. Stirling, of Vancouver, are visiting Mrs. Stirling's parents, Mr. Grote Stirling, M.P. and Mrs. Stirling, Burne Avenue.

Mrs. W. B. M. Calder returned on Monday from Port Moody, where she was visiting her son and daughter-in-law, Mr. and Mrs. J. E. Calder.

A party of lucky anglers consisting of Mr. and Mrs. S. M. Simpson and Mr. and Mrs. R. S. Moe caught thirty-four trout at Sugar Lake on Sunday.

Mrs. A. H. Davis, of Glenmore, who suffered internal injury through falling down the steps of her cellar last week, is now progressing well at the Kelowna General Hospital.

Mrs. E. Crow-Baker and Miss Jean Ross, of Victoria, passed through the city yesterday on their way to Banff. They stayed at the Eldorado Arms over the week-end.

Rev. C. E. Davis went to Armstrong on Tuesday to attend the Rural Deacons' sermon held there and preached the sermon at the church service, returning home yesterday.

Mr. F. H. Hill, C.P.R. Express Agent, Nelson, was in the city on Tuesday renewing old acquaintances. He is enjoying a fortnight's holiday and left for Kamloops today.

We are glad to be able to report that Mrs. O. F. D. Norington, who has been ill for some time, and who is at present at the Kelowna General Hospital, is now making a rapid recovery.

Mr. Grote Stirling, M.P., returned home on Saturday from a trip to the Grand Forks district, where he addressed several public gatherings. He is at present in the North Okanagan.

Mr. L. Holman commenced his duties as field man for the British Columbia Tobacco Products Co. Ltd., yesterday, and is now busily employed in giving advice to tobacco growers in this district.

The date of the merchants' supper, which was to have been held here under the auspices of the Kelowna Women's Institute in connection with B. C. Products Week, has been indefinitely postponed.

A special meeting of the B.C. Growers' and Shippers' Federation is to be held on Saturday in the Board of Trade Hall, when the by-laws of the organization will be revised and other matters of importance dealt with.

The firm of Wilkinson & Paret report the sale of the Shand property at Okanagan Mission, consisting of seven and a half acres, to Mr. A. Pollock, of Innisfail, Alberta. Mr. and Mrs. Pollock will move into their new home immediately.

Miss Eleanor Palmer, a pupil of the local Pitman Business College, has been officially notified that she was one of the successful competitors at the recent Provincial Civil Service examination for junior stenographers, held last month.

Hon. S. F. Tolmie, M.P., paid a brief visit to the city on Sunday on his way to the North Okanagan, where he is taking part in the present by-election campaign. Mr. W. A. McKenzie, M.L.A., was also a visitor here the same day, returning south in the evening.

The Rt. Rev. A. J. Doull, D.D., Bishop of Kootenay, and the clergy and lay delegates of the diocese attending the Synod will arrive here next Tuesday. Divine service will be held that evening at 8 o'clock, in St. Michael and All Angels Church, when the sermon will be preached by Ven. F. H. Graham, M.A., Archdeacon of Kootenay. The visiting clergy and laity will attend a Choral Eucharist on Wednesday morning at 7.30, and the business sessions of the Synod will be held later that day and on Thursday in the Parish Hall, Sutherland Avenue.

The local officials of the Provincial Department of Agriculture completed the first spray for codling moth within the city limits yesterday. The second spray will be applied in about a fortnight's time; the third about ten days later; and the fourth at the end of July.

In the City Police Court, on Saturday, a man was fined \$25 and \$2.50 costs for having been in a drunken condition in a public place, and in the same court on Monday another offender was fined \$5 and \$2.50 costs for having driven his car without the necessary lights.

According to official statements, forest conditions in B. C. are better this year than for many years past. Only seventy forest fires have occurred, none of which has been serious, whereas last year at this date three hundred and ten had been recorded, many of which did much damage.

Mr. A. J. Clarke, of Ellison, met with a very serious accident on Monday. While working on the roof of Miss Orchard's house he fell about thirty feet to the ground, sustaining severe injury to his back. He was conveyed as soon as possible to the Kelowna General Hospital, where he received medical attention, but his condition is considered very serious.

Mrs. M. E. Wilmot, Lady Superintendent of the Kelowna General Hospital, returned on Monday from Vancouver, where she attended the graduation exercises of the Vancouver General Hospital, which this year were held at the Arena and at which Nurses H. A. Sallis, Ruth Woolsey and E. F. Buse received their medals and diplomas, having completed their third year in training at the V. G. H.

At the regular monthly meeting of the Hospital Ladies Aid, held on Monday, plans were discussed for placing a float in the Confederation Day celebration parade. The members of the Aid wish to acknowledge with thanks donations of \$5 each from the Women's Institutes of Okanagan Centre and Infield and a gift of six ice bags from Mrs. J. W. Jones. They also wish to thank Mr. R. Mathie for making a laundry bag.

The members of the Young Women's Auxiliary of the First-United Church met at the home of Miss Minnie Curtis, a bride-elect on Monday evening, when the President, Miss S. Shier, presented Miss Curtis with a very pretty pyrex casserole in a silver frame as a token of the good wishes of the Auxiliary. After the presentation a pleasant social evening was held which included several novel features under the direction of Miss Alice Renwick.

Dr. S. J. Willis, Provincial Superintendent of Education, paid a visit to the local schools last Thursday. He was accompanied during his inspection by Inspector T. R. Hall, Mayor Sutherland and the members of the School Board, with whom he discussed the best way in which the congestion caused by the present insufficient accommodation for scholars could be relieved. Dr. Willis spoke in very complimentary terms of the teaching staff and was much impressed by the art displays and the singing of the various school choirs, will submit his report to the School Board very shortly.

Mr. L. J. Wood, Field Manager of the Okanagan-Cariboo Trail Association, is visiting the town this week in the interests of his organization. All indications point, he states, to a large volume of tourist traffic this season, consequent upon the opening of the Cariboo Road along the Fraser River. He made the circuit himself last week from Fernie via Kamloops to the Coast and thence via the Snoqualmie and Blewett passes, driving a Ford sedan, and, despite the detour necessary until the direct road between Lytton and Spence's Bridge is completed, he covered the distance, including many stops for propaganda work, in five days actual driving time.

An enthusiastic visitor to Kelowna is Mr. P. H. O'Reilly, of Calgary, who is spending a few days in the city as the guest of Mr. L. J. Kirkham, Eli Avenue. He is on his way home after a stay of several months in Colorado for the benefit of his health. Mr. O'Reilly, who is a barrister, is enraptured with the Okanagan and especially with the surroundings of Kelowna, with which, he says, there is nothing to compare in Colorado and Southern California. While the scenery in the Grand Canyon of Colorado is on a magnificent scale, much of the country is nothing but arid desert, unappealingly drear in spite of all the efforts of advertising folders to dwell on its picturesque and glossy over its ugly side. Mr. O'Reilly hopes to return at a future date and make a longer stay.

## AUTOMOBILE CLUB MEMBERSHIP GROWS

Local Campaign Approaches The Hundred Mark

The prospect of this city securing a branch office and information bureau of the Automobile Club of British Columbia appears to be good. Mr. Jack R. Garmod, Field Secretary of that organization, reports that the assistance of members of the Kelowna Board of Trade, has secured the following additional members, making ninety-four in all to date: E. R. Bailey, Sr., W. H. H. McDougall, W. J. Coe, J. Ball, H. V. Craig, J. W. Jones, M. H. Lee, D. K. Gordon, E. L. Greenside, A. I. Dawson, A. T. Treadgold, J. W. N. Shepherd, R. Whillis, R. M. Hart, H. A. Blakeborough, P. Capozzi, S. J. Weatherly, D. L. Pogson, N. D. McTavish, L. R. Stephens, K. Iwashita, J. Hunt, E. O. MacGinnis, D. W. Sutherland, S. M. Gore, N. M. Foulkes, E. A. Murchison, H. V. Acland, W. Metcalfe, J. W. Bell, F. L. Mitchell, J. W. B. Browne, Grote Stirling, B. F. Boyce, W. G. Scott, E. Lawley, H. C. Smithers, G. S. McKenzie, H. R. Haug, A. J. Hughes, F. W. Elmore, G. L. Chalenger, R. H. Hill, R. F. Morrison, F. W. Pridham, F. T. Powick, H. D. Weatherill, L. J. Kelly, J. E. Wright, G. L. Campbell and Mrs. W. J. Knox.

## WEATHER FAVOURS GARDEN PARTY

Successful Event Held By Anglican Women's Auxiliary

Favoured by lovely weather, the garden party held under the auspices of the Anglican Women's Auxiliary in the grounds of Chief of Police Thomas, on Saturday afternoon, was a most successful and pleasant affair. Those present had a good opportunity to inspect the property, which contains more foreign trees, shrubs and plants than any other in this district and practically everybody had a good look over it with a view to acquiring useful information. While a little early in the season to be looking at their very best, these grounds with their great quantities of beautiful trees, flowering shrubs and flower clusters presented a most beautiful sight. They were also an object lesson to many visitors, as the whole tract from end to end contains no weeds of any kind.

Soon after two o'clock visitors began to arrive and for their entertainment, and especially for the children, various contests had been arranged. Tea also was served on the front lawn, and various games staged on the south lawn, so that all who attended the party had plenty to occupy their time. Mrs. Thomas looked well after all and everybody was kept busy, so that interest in the various competitions never flagged. The following were in charge of the various booths and contests: needlework, Mrs. H. J. Hewitson; home cooking, Mrs. Lindsay Reed; white elephant, Mrs. H. C. Francis; candy and toys (Junior W.A.), Mrs. J. A. Watt; tea, Mrs. R. W. Thomas and Mrs. G. Chaplin; ice cream, Mrs. G. A. Fisher; flower and shrub guessing contest, Mrs. G. R. Binger; clock golf, Mrs. G. R. Binger; mashe shots, Major Lindsay Reed; game guessing, Mrs. Flinders; archery, Mrs. R. Stone; doll's name contest, Mrs. Flinders; children's games, Mrs. G. Royle and Mrs. Dawson.

The novel contest of guessing the names of various trees and shrubs, forty of which had been numbered for the occasion, provided an opportunity for many to display their botanical knowledge. It was won by Mr. J. E. Britton, Supervisor of Agricultural Instruction at the High School, who only failed to name two trees, with Mrs. J. Patterson a very close second. The doll's name competition was won by Miss May Tilley, the golf contest by Mr. R. Stirling and the mashe shots game by Mr. M. Stirling.

Great credit is due Mrs. Grote Stirling and the members of the Auxiliary for the good arrangements made, and it is gratifying to be able to record that the garden party netted a substantial sum for the missionary fund of the church.

## DOUG MACLEAN DONS REGIMENTALS AGAIN

This Time He Belongs To The Fighting Marines

That lad with the toothsome smile, Douglas MacLean, whose grin means happiness and laughter to millions of fans the world over, arrives at the Empress on Wednesday and Thursday next, June 8th and 9th, in what is heralded as his funniest to date, "Let It Rain."

Remembering his initial success as the comic in "Twenty-three and Half Hours' Leave," Doug has again donned regimentals and is now revealed as a fighting marine. And what a devil-dog he is! His methods at play or at work are unique and different. When he goes after a gang of thieves, he sticks to it and "gets his man" with a gun and his audience with gaspy laughs.

As "Let-It-Rain" Riley, Doug shows what happens when a young man makes up his mind to accomplish something. A pretty young woman comes aboard ship and the marine recognizes her as the girl of his heart. But when he sees an officer claim her undivided attention, he soon realizes that chevrons must be attention-getters. Then and there, he resolves to raise himself from the ranks. How he does it and how she helps him by letting him know of a proposed mail robbery provides material for lots of laughs. In the course of the film, Doug becomes embroiled with a gang of bandits on a runaway mail coach. Does he get out alive? Well, you'll have to see the picture to find out.

Winsome Shirley Mason, heroine of "Desert Gold" and "Kosher Kitty Kelly," is the girl Wade Boteler, who has appeared in MacLean's most recent comedies, enacts Doug's sworn enemy, Kelley, the gob. Frank Campeau, character actor, is the marine commander, James Mason, Lee Shumway, Lincoln Stedman and Jimmy Bradbury complete the cast.

The Rev. W. B. Willan, Minister of the Central United Church, Vernon, has received and accepted a call from the West Point Grey United Church and will leave Vernon to take up his new charge early in July.

## COMMEMORATION OF THE DIAMOND JUBILEE OF CONFEDERATION

APPLICATIONS are invited for concessions to operate soft drinks, ice cream and refreshment booths in the City Park on July 1st, 1927.

E. W. BARTON, Secretary, Local Committee. 42-1c

## Sale of Early Summer Millinery at \$5.95

One can have a smart new hat to add further charm to her costume at a small price here this week. And coming, as it does, at a time when a new hat is most likely to be needed, it presents a fashion and saving opportunity that should not be missed.

Model Hats, all trimmed; on sale at ..... \$5.95

## Silk Frocks Specially Priced \$9.75

Here are Silk Frocks that are really worth almost twice this price. They consist of Flat Crepes, Crepe de Chines and Satins in a large assortment of colourings. Make your selection early. Reduced to ..... \$9.75

Phone 361

\$15,000.00

## This May Mean YOU!

This week the Hospital has sent out accounts for \$15,000. As far as is known no accounts have been sent to indigents.

WHY is the Hospital in debt to merchants? WHY is the Hospital making shift with worn out furniture? WHY are many things the Hospital should have, lacking? WHY does the Hospital have to beg?

BECAUSE \$15,000 bills (besides indigents) are not paid.

When you go to your dances, parties, game of tennis, golf, etc., THINK—Do I owe the Hospital my health to enjoy these? Have I paid my account?

## Don't Forget Your Hospital Account This Month

42-1c

## Aquatic Association

## Weekly Dances

EVERY WEDNESDAY

## OPEN TO MEMBERS

TICKETS may be obtained from F. J. Foot at the Pavilion or H. G. M. Wilson, Bernard Avenue.

# Real Quality "SALADA" TEA

Paying less can only mean poor tea.

## Investments

We would advise anyone considering investing money to seek the advice of a responsible investment house which they know personally before investing, and would warn them that many thousands of dollars have been lost in this community through taking the advice of strangers and salesmen of firms located outside the Valley.

We have been in business in Kelowna for eighteen years, and have a Board of Directors well known to the general public and a reputation for sound advice to investors.

When you know you can invest soundly and safely through this local investment house why not use it when you require investment service?

Don't be fooled with stories of large profits or by rosy prospectuses.

If you are considering an investment get our advice before you make it.

We invite you to call in and consult us or write.

age of time payments. Ask about  
Chrysler's attractive plan.

60 miles plus—with exceptional ease  
5 to 25 miles in 7¾ seconds - 26 miles  
per gallon - 7-bearing crankshaft.

To literally scores of thousands, Chrysler "60" is proving that its public preference is based upon the soundest of buying reasons—unmistakable money-value. There's more than a thrill in the "60's" pick-up and in its speed ability of sixty miles and more an hour with exceptional ease. There's speed without the least effort, combined with most unusual riding comfort and handling facility. Mechanically, the "60" has many of the very same features to be found in the Chrysler "70" or Imperial "80": Seven-bearing crankshaft, invar-struct pistons, impulse neutralizer, manifold heat control, air cleaner, oil filter, full pressure lubrication, hydraulic four-wheel brakes and shock absorbers. Come, see the Chrysler "60"—and note the essential fitness of its Standardized Quality manufacture. You'll recognize, especially after driving it, there isn't another six of its price that even begins to compare with it in quality and value.

THE CANADIAN-BUILT CHRYSLER FOR CANADIANS

### DOMINION'S OFFICIAL CARILLONEUR APPOINTED

The Canadian Government has appointed Mr. Percival Price, a native of Toronto, as the official carillonneur of the Dominion. He will play the new carillon of bells now being installed in the Peace Tower at Ottawa. Mr. Price is one of the few experienced carillonneurs in the world, and the first Canadian to practice the art, which he learned in Europe. He played the first carillon in Canada, the Massey Carillon at the Metropolitan Church, Toronto, for four years, and for the past eighteen months has been playing at the Rockefeller Memorial Church at New York. He studied at the Carillon School at Malines, Belgium, the finest school of its kind in the world, and recently received his diploma. Mr. Price is here seen sitting at the keyboard of the Massey Carillon at Toronto.

### JUNE ISSUE OF "ROD AND GUN"

Similar to the Dominion Tourist issue of last month but specially broad-casting the attractions of the province of Ontario, the June number of "Rod and Gun and Canadian Silver Fox News" is published in the shape of a special Ontario Tourist issue. A special feature is a tinted illustrated section which describes some of the splendid summer resorts that Ontario offers the tourist. In addition, a personal message of welcome to tourists by the Hon. G. Howard Ferguson is published in the place of the editorial.

The regular contents are made up in this issue of stories and articles dealing for the most part especially with Ontario.

An important change is made in the appointment of C. G. Hopton, internationally famous breeder and judge, to be editor of the Kennel Department, associated with Dr. L. E. L. Taylor. He commences his duties in the June issue.

"Rod and Gun and Canadian Silver Fox News" is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

### TWENTY YEARS AGO

(From the files of "The Kelowna Courier")

Thursday, May 30, 1907  
"The lake is steadily rising and will soon be at high-water mark. It is keeping the old-timers guessing to estimate what level it will reach."

"We understand a deal for the Palace Hotel has been definitely concluded. Mr. J. W. Milligan having accepted the offer of Mr. A. Peabody of \$21,000. Mr. Peabody, it will be remembered, was here some time ago looking over the country with a view to starting a cannery."

"A rumour having been circulated that most of the peach trees on the property lately purchased by Mr. R. A. Pease from Mr. A. McLennan, on the west side of the lake, were killed by the exceptional cold of last winter, a Courier representative made enquiry of the latter gentleman, and was assured that not only had no damage been done, but there is every prospect of a heavy crop both of peaches and apricots, the latter being, as is generally known, a very tender tree."

"A dam in Garnet Valley, near Summerland, burst last week, causing a great deal of damage. Mr. H. Sutherland's house was completely wrecked, and Mr. J. W. S. Logie's camp at the mouth of Eneas Creek was carried into the lake. Some good land was badly cut up and practically ruined, and the total loss may amount to \$5,000. This disaster points a warning to all contemplating storage systems, happening so soon after the breaking of a dam on the Grey canal, near Vernon, to erect substantial structures with a safety factor very much greater than the ordinary average annual high-water pressure, as the unforeseen always happens, and the sudden liberation of a large body of water might mean the loss of valuable lives as well as property."

The Victoria Day celebration was favoured with fine weather and there was a large attendance at the athletic sports in the Park in the morning and at the race track, where \$352 was taken at the gates during the afternoon. A football game between Penticton and Kelowna was very closely contested, resulting in a tie with a score of one goal each.

"Following the receipt of official analyses condemning water taken from several wells in town, the Council met as a committee of the whole on Tuesday night to discuss the provision of a water supply for the city."

"Mayor Sutherland favours a plan by which water will be pumped from the lake to a reservoir on Knox Mountain, at an elevation of 280 feet above the town, and from thence distributed by an extensive system of service pipes. Power for pumping would be derived from the plant to be installed by Mr. F. Schneider for electric lighting. It is believed the engines ordered by Mr. Schneider will be 200 h.p., and it would be an easy matter to pump full a large reservoir in the course of an hour or two daily. To keep consumption of water within reasonable limits, the Mayor proposes to install water meters."

"The scheme is practically that advocated by Mr. Newby last year and supported by the Courier, with the added advantage that the necessary power will probably be much cheaper. In round figures, the system would cost about \$25,000. If 50-year debentures are issued, Mayor Sutherland estimates the annual cost to the city will be \$1,450, which, of course, would be largely offset by the revenue derived."

"It is claimed on behalf of the reservoir plan that, should the city at any time decide to adopt a gravity sys-

## RUTLAND

On Wednesday evening last, a small but interested crowd of poultry raisers assembled in the small Community Hall to listen to an address by Mr. H. E. Waby, Provincial Poultry Inspector. The meeting, which was a joint one of the Rutland Growers' Association and Women's Institute, was presided over by Mr. H. LePargneux.

Mr. Waby spoke of the main characteristics of the different breeds, of the proper kind of hen houses to build, the different rations and the care of poultry generally. He expressed the opinion that poultry was really the best side line on a fruit farm. He spoke of his own farm, on which he raised cattle, sheep, pigs and hens, but the poultry paid him better than any of the others. Mr. Waby touched on the question of raising table fowls and said there was a good market for them if they were properly fattened and finished. A number of questions were answered by Mr. Waby, who was accorded a hearty vote of thanks for his interesting address, at the close of which refreshments were served.

The School was visited on Friday by Mr. S. J. Willis, Superintendent of Education for the Province. Mr. Willis was accompanied by his wife and Inspector and Mrs. Hall.

Mr. Lowell Montgomery is visiting his brother and sister-in-law, Mr. and Mrs. Calbert Montgomery.

The Rutland Growers' Association are to hold an important meeting in the Community Hall next Monday evening, when the B.M.I.D. water rates, both present and future, will be discussed. Mr. Grote Stirling, M.F., and Mr. J. W. Jones, M.L.A., will attend the meeting. We understand that among other matters which will be talked about will be the early construction costs, which have been frequently criticized at past meetings.

A report of the committee appointed to investigate the possibilities of obtaining for Rutland electric lighting and power facilities similar to those enjoyed by the Goldstream and other rural districts will be presented. It is hoped that something further will be heard in regard to the Pound District.

Latest reports from the reservoir confirm those of last week regarding the ample supply of water which will be available for irrigation purposes this season. There are already 3,500 acre feet stored in the reservoir and the water is still coming in freely and will continue to do so probably for the next two weeks.

We are requested to state that a third of the net proceeds of the Community Rally, which will be held on the School grounds tomorrow (Friday), will be given to Kelowna Hospital.

### FISH MEAL AS FEED FOR HOGS

(Experimental Farms Note)  
High grade, wholesome, edible fish meal has become a popular feed for poultry in British Columbia, where it is being manufactured in considerable quantities. Its chief advantage over the higher grade beef scraps is that the price is lower and some poultrymen prefer it even at equal cost. It contains from 60 to 70 per cent protein, while some brands run as high as 16 per cent fat. A high fat content is objectionable, as it must be fed sparingly to laying stock, and it will not keep so well as a fish meal with less fat.

At the Dominion Experimental Farm, Agassiz, B.C., fish meal has recently been tested as a supplement to a grain ration for hogs in comparison with skim milk. Eight uniform lots of five hogs each were started on the trial in June when they were ten weeks old. Pen No. 1 received skim milk and grain until finished in October, during which time it gained 705 pounds. Pen No. 2, without skim milk but with seven per cent fish meal added to the same grain ration, gained 767 pounds in the same period. Another pen fed skim milk for a month, then changed to fish meal, gained 755 pounds; another pen fed milk for two months and changed to fish meal gained 786 pounds, and still another fed milk for three months and then fish meal gained 710 pounds. Hogs fed identically the same as the above lots with milk for these same periods and finished on grain without the fish meal in all cases made less gains.

Although the fish meal fed hogs produced greater gains, the rations without the fish meal were the more economical. This was charging the fish meal at \$70.00 per ton, the grain at \$34.00 per ton and the milk at twenty-five cents per cwt. The pork made from the fish meal fed hogs was of good quality.

While this is the result of only one year's experimental work, nevertheless the results are fairly comparable with results obtained in feeding fish meal on other Experimental Farms and Stations, and therefore fairly reliable. One point that should not be lost sight of is that skim milk formed a material part of the ration for some of the lots that showed the most gain with fish meal.

W. H. HICKS,  
Superintendent, Dom. Exp. Farm,  
Agassiz, B.C.

tem, it would be easy to feed the reservoir by a main, while the distribution pipes would require no change."

"The Courier heartily endorses the proposal, believing that the lack of a good water supply is a serious factor in keeping back a more rapid rate of growth for Kelowna, while considerations of health are imperative and can no longer be ignored."

The result of experiments made at various experimental stations in the United States shows that the McIntosh apple tree is self-sterile, also that there exists some relationship between the shape of the apple and the fertilization of the bloom. Where the bloom was cross-fertilized large crops were obtained, but where cross-fertilization was prevented the apples produced were irregular in shape and inferior in every way. The experiments also established the fact that the growth of the apples, where there was no cross-fertilization, was materially retarded on the side containing the fewest, or no seeds.

## THE CORPORATION OF THE CITY OF KELOWNA

### DOG TAX FINAL WARNING

NOTICE IS HEREBY GIVEN to all persons owning or harbouring dogs within the City of Kelowna that unless they immediately obtain licences for their dogs, and attach the licence tags to their dogs, they will be proceeded against.

### NOXIOUS WEEDS

The Provincial Authorities having requested the Council to strictly enforce the provisions of the "Noxious Weeds Act," all owners and occupiers of land are hereby warned that they will be liable to prosecution if any noxious weeds are permitted to grow on their property.

The following are classified as "Noxious Weeds" under the Act:—Canada thistle, perennial sow thistle, annual sow thistle, bull thistle, Russian thistle, ox-eye daisy, wild mustard or charlock, tumbling mustard, ball-mustard, wild oats, stinkweed, ragweed, blue burr or stickseed, dodder.

## LETTERS TO THE EDITOR

### SALES SERVICE EXPLAINS RELATIONS WITH NASH

Kelowna, B.C., May 31, 1927  
The Editor,  
Kelowna Courier.

In the issue of May 19th, the Vernon News published under the heading "Associated's Achievements Related to Sales Service, Limited, which are incorrect. These statements are attributed to Mr. H. K. Whimster, who is an employee of the Associated Growers.

The officials of the Associated Growers have been fair in admitting the incorrectness of these statements and published in the News issue of the 26th a letter making the necessary corrections and explanations.

In addition, we feel that it is necessary to publish a definite statement covering the facts since the statements made by Mr. Whimster are considered to be damaging to Sales Service.

By direct statement and by implication the article referred to conveys the definite impression that Sales Service, Limited, was organized by the Nash Simington Company, Limited; that the Nash Simington Company sent a representative to the Okanagan for the purpose of assisting Sales Service during the season of 1926; and that the present manager of Sales Service is still an employee of the Nash organization.

None of these statements or implications have the slightest foundation in fact. Sales Service, Ltd., shareholders are a matter of record with the Registrar of Joint Stock Companies, and there can be no excuse for any mistakes being made in this connection. The idea of the organization of the Company originated with Okanagan business men and no Prairie jobbers or group of jobbers were consulted in any way previous to incorporation, nor has

THE WORLD-FAMOUS AUSTRALIAN NATIONAL BAND

Which comes to Kelowna for one day, Friday, June 24th, to play two performances in the Scout Hall. This is the band that wrested the British Empire Championship from all English bands in 1925, and which played two repeat engagements at Wembley Exhibition. They are being brought here by the Kelowna Aquatic Association, under heavy guarantees as a community undertaking. Each programme will be entirely different.

anyone outside of the actual shareholders any connection with or interest in Sales Service Ltd. The Company was formed for the purpose of providing a central service for all B.C. shippers of fruits and vegetables, whether co-operative or independent. Its primary objects are the promotion of all plans that tend towards the betterment of the industry in the interests of growers as well as shippers; in addition, Sales Service is directly interested in the extension of markets served by its members and cannot afford to become too closely identified with any of the various interests outside the province which are competing for the handling of B.C. products.

The statement that the Nash Simington Co. sent a representative to the Okanagan for the purpose of assisting Sales Service, Ltd., during the season of 1926, refers to the establishing in the Okanagan of the Nash Simington Co., Ltd., fruit purchasing department under the management of Mr. R. B. Staples. In fairness to the Nash organization it should be stated that the manner in which their purchasing department was conducted last season was of material assistance both to Sales Service, Ltd., and to the other shipping interests in the Okanagan. It is conceded by competent judgment that by working together last season the Associated and Sales Service were able to save the growers thousands of dollars and probably averted complete disaster on a long crop year. This would not have been possible had it not been for the co-operation of the Nash organization who permitted their buying to be allocated on a definite percentage basis by the two large shipping organizations. Under this arrangement, the Nash Simington Co., Ltd., fruit purchasing department purchased percentage less than 50% of Sales Service shipments during 1926. Sales Service, however, had nothing whatever to do with this firm coming into the Okanagan, nor had the Nash manager, Mr. Staples, any connection whatever with the management of Sales Service during 1926.

With reference to the statement that implies that the present manager of Sales Service is also employed as the representative of the Nash organization, it is sufficient to repeat that the implication has not the slightest foundation in fact. Sales Service, Ltd., appreciates fully the prompt manner in which the Associated Growers sought to correct wrong impressions made by one of their employees. It is in the best interests of the growers and the fruit industry generally that the present friendly relations existing between the two firms should continue. The bigger problems affecting the industry can best be solved by the united effort of all factions, and where the two larger organizations compete in service it is the desire of Sales Service, Ltd., that such competition should have as its basis mutual confidence and respect.

Yours truly,  
SALES SERVICE, LIMITED,  
O. JENNENS,  
President.

Miss Flora Copeland left on May 25th for Vancouver, where she intends making an indefinite stay.

Mrs. Beedham, of Victoria, is visiting Mr. and Mrs. Templeman.

Mr. F. W. Groves, of Kelowna, was in on Friday and Saturday looking after his orchards.

The Misses Hare had for a week-end guest Mrs. Wadsworth, of the Mission.

Two Tested Recipes  
FOR SALAD DRESSING

Now that salads are the order of the day, really good recipes for salad dressings will be welcomed. A salad is often made or marred by the piquancy of the dressing used, so that tested recipes are very desirable. Since some prefer an uncooked dressing and others a cooked dressing, here are two recipes, both of which will please:

**Salad Dressing (Uncooked)**  
2 eggs beaten until light; 1/2 teaspoon salt; 1/2 teaspoon mustard; 1/2 cup vinegar. Beat the first four ingredients vigorously for a few minutes, add the vinegar, stir well and set aside for a few hours to thicken. Excellent for fruit or vegetable salad. Will keep for weeks. For Russian dressing add Chili sauce to taste.

**Salad Dressing (Cooked)**  
1/2 tablespoon salt; 1 teaspoon mustard; 1 tablespoon flour; 1 tablespoon butter; 1/2 cup Eagle Brand Condensed Milk; 1/2 cup water; 1/2 cup vinegar; 1 egg. Mix dry ingredients, add slightly beaten egg, butter, milk, water and vinegar. Cook until thickened. Strain and cool. Whipped Borden's Borden's Evaporated Milk, or cream, may be added before serving if desired. Yield, 1 cupful.

The Big Bend Highway, north of Revelstoke, which traverses some of the most spectacular scenery in this province, was opened for traffic last week.

The city authorities of Kamloops are carrying on at present one of the largest tree-planting schemes ever undertaken in this province, several miles of residential streets having had shade trees of various varieties placed on them.

Allan Guinet, a Chilliwack High School student, who for some years past has made a hobby of growing new kinds of potatoes, has succeeded in producing a variety which is coloured blue all through. A chemical analysis of this strange potato shows that its colouring matter is similar to that of beets and red cabbage and that it contains a considerable percentage of iron. It is said to have a very palatable flavor, and it is expected that there will be a demand for it for making salads as many housewives like their salads to contain a variety of colours.

**SOFTENING HARD WATERS**  
(Experimental Farms Notes)

Moderately hard waters are agreeable to drink and are probably helpful in bone formation in the animal and human economy. On the other hand, in the household and laundry, in addition to their being wasteful of soap, hard waters are disagreeable and troublesome. Further, their property of causing chalky deposits in kettles, boilers and hot pipes is distinctly objectionable.

Boiling will partially remove "temporary hardness" which is due to the presence of bi-carbonate of lime and magnesia. The chemical explanation of this well known action is that boiling breaks up the bi-carbonates, driving carbon dioxide out of the water as gas. Simple carbonates of lime and magnesia are left, which, being practically insoluble in water, are deposited in the form of whitish scale or "precipitate". This deposit or precipitate will settle to the bottom of the vessel, allowing the now softened and practically chalk-free water to be poured off from the top.

Lime will also remove "temporary hardness" from water. This seems at first sight contradictory, as it is adding lime in order to remove (carbonate of) lime. "Clark's lime process" of softening water is, however, well known and established and is used extensively in large city reservoirs. The explanation is that fresh lime robs the bi-carbonates of half their carbon dioxide, all the lime falling to the bottom as simple mono-carbonate of lime.

Carbonate of soda (sal soda) and borax will eliminate "permanent hardness" (due to the presence of chlorides and sulphates of lime and magnesia). Carbonate or borate of lime and magnesia are formed, again falling to the bottom as a whitish deposit. The resulting "soda" water is not very palatable to drink but is satisfactory for laundering purposes.

Zeolites or permutits are all complex silicates. They possess an extreme-

## OKANAGAN COW-TESTING ASSOCIATION

### Butter-Fat Results For The Month Of May

The cows in the following list of the Okanagan Cow-Testing Association's test results during the month of May are arranged in two classes: animals over three years old, which gave not less than 50 lbs. of butter-fat during the month, and cows two and three years old, which gave not less than 40 lbs. The name of the cow is given first, then number of days since freshening, breed, lbs. of milk, lbs. of butter-fat, and name of owner.

T. G. M. CLARKE,  
Supervisor.

ly important property of exchanging bases. This exchange property is utilized in water softening, the lime and magnesia in the water displacing the sodium of the permitt, while the sodium passes away in solution. When the permitt ceases to be effective regeneration is simply and efficiently carried out by passing through the permitt (which now has calcium or magnesium for its base) a weak solution of common salt and in this case the calcium and magnesium are carried away in solution, leaving the permitt again ready for water softening purposes. Certain commercial firms in Canada and the United States make it their business to install the necessary fittings in factories and dwellings for the full working of the zeolite method of water softening preliminary to the use of the water in a boiler or a heating system.

5. Distillation will free water from all dissolved minerals, including "hardness". This extreme measure has to be resorted to where the salinity is due to minerals which cannot be removed by precipitation, for example chloride and sulphate of soda. The objection to distillation is its expense and the "flat" nature of the product—due to absence of any dissolved air. The distillate may be artificially aerated by pouring it several times from one vessel to another. In some semi-arid district of Alberta where no better sources of water can be found, water stills must be permanently installed in the houses in order to secure a regular supply of potable water.

FRANK T. SHUTT.

Owing to the success of the tulip display held last week by the Vernon and District Horticultural Society, it has been decided by that organization to hold a bulb show next year.

Occidental	2	0	0	1	1
Canadian Legion	2	0	1	1	1
City	2	0	1	1	1

Next Match: Spencer Cup fixture, Friday, June 3, Vernon at Kelowna.

**Occidentals Overwhelm City**  
Compiling the largest score of the season, and what is probably a record in a Kelowna league match, Occidentals this week won from City and took a commanding lead in the Kelowna and District League standing. The Packers ran up 182 for 9 wickets, Oliver, with 44, and L. Hayes, 29 not out, being the leading batsmen. The City batsmen were unable to do anything with the bowling of the winners, Dunlop taking no less than 5 wickets for but 8 runs, while Mallam and Oliver were also effective with the ball, and the City were all got out for 61.

Occidentals batted first on a fast wicket, Oliver soon running up the score by hard hitting, while Dunlop was also effective with the willow as well as with the ball. L. Hayes played steady cricket for 29 not out. The City fell down badly against the bowling of Dunlop and Mallam, Crichton and Hayman being the only players to make a stand. E. Matthews, for the City, took 4 wickets, but was hit harder than usual. Several good catches were made by both sides, and the fielding was fairly good. The Occidentals appear to be the team to beat in the competition for the Knowles Cup, as they have run up large totals in their two matches so far.

**Vernon To Play Here Tomorrow**  
Tomorrow, Friday, June 3, Vernon will be down for an all day match in the Spencer Cup series for the Okanagan championship, play being scheduled to start at 11 a.m. under M.C.C. rules, which means that if two complete innings have not been played, by the time set for the drawing of stumps (6 p.m.), the winners will be decided on the first inning totals. Vernon won an easy victory over Salmon Arm on May 24th in the first match for the Spencer Cup, Kimmner's bowling being too much for the Salmon Arm batsmen, who were dismissed for a very small score. The team chosen to represent Kelowna on Friday is as follows:—C. Dunlop (Captain), R. Sutton, H. Verity, E. A. Matthews, A. K. Loyd, L. Hayes, A. H. Crichton, H. Blakeborough, D. Oliver, H. Mangin and Bury. W. Cook has been selected as umpire, with J. V. Ablett as scorer.

**Junior Cricket**  
Kelowna and District Boys vs. Vernon Preparatory School. The following team will represent Kelowna on Saturday next at the match which will be played at the local Recreation Ground, commencing at 10 a.m.: D. Verity (Capt.), D. Reed, L. Hill, T. Stubbs, T. Dodd, R. Simcoe, R. Gale, H. Aitken, R. Lupton, B. Farris and B. Roberts; reserves, D. Ford and D. Wilmot. Stumps will be drawn at 3 p.m. to enable Scouts to attend the Scout Display. Lunch will be served between noon and 1 p.m. Kelowna boys are asked to play in flannels, if possible.

### BASEBALL

#### Kelowna Holds Lead In League

Winfield missed an opportunity to creep into a tie with Kelowna for the lead in the Central Okanagan league, when they lost to the locals on Friday night at Winfield, 5-3. Four runs in one inning were sufficient to give Kelowna a lead which they maintained to give Winfield their second defeat of the season, while keeping their unbeaten record.

On the same evening Oyama were giving Rutland another beating, the losers keeping within striking distance until the final inning, when Oyama scored five runs after two men were out. Crawford of Oyama furnished the feature of the evening by driving out a home run to deep left field over the trees, the first time a home run has been driven to this point. Bach pitched good ball for the losers but his support was uncertain.

One of the largest crowds of the season attended the Winfield-Kelowna fixture, in which excitement was maintained until the final inning, Byrde, for Kelowna, and Duggan, for Winfield, pitching good ball and receiving fair support.

League Standing	P.	W.	L.	D.	Pts.
Oyama	2	5	0	2	14
Rutland	0	1	1	0	2

Batteries: Oyama, Pattullo and Crawford; Rutland, Bach and Sexsmith.

League Standing	P.	W.	L.	D.	Pts.
Kelowna	8	8	0	1	1,000
Winfield	8	6	2	7	750
Oyama	8	1	7	1	125
Rutland	8	0	8	0	000

**Kelowna Shuts Out Oyama**  
Holding Oyama to two scattered hits, Byrde, the Kelowna pitcher, won his own game on Tuesday night at Athletic Park against Oyama by driving out three hits against his opponents, and the locals shut out the visitors 9-0. Pattullo, in the box for Oyama, was forced to retire in the third inning when his arm failed him, Young relieving him and pitching good ball.

**Rutland Loses To Winfield**  
Winfield also won from Rutland on the same night and kept close to Kelowna, who have yet to meet defeat. According to the rules of the League, should the leading team at the close of the schedule not have a 200 point percentage lead over the second club a playoff will be necessary, and as Winfield have two games to play with Kelowna, Winfield must win one of them to enable them to enter the final playoff, providing that each club wins all its other fixtures. Kelowna journey to Winfield Tuesday in what will be an important game for each team, and the result will have a bearing on the league championship and possession of the cup.

Tuesday results were as follows:—  
At Rutland  
Winfield ..... 1 0 0 3 3 5 0—12  
Rutland ..... 2 0 0 0 2 0 1—5

Batteries: Winfield, Duggan and McCarthy; Rutland: Bach, Stafford and Sexsmith.

At Kelowna	Oyama	0 0 0 0 0 0—0
	Kelowna	1 0 3 4 0 1—9
Batteries:	Kelowna, Byrde and Foster.	Oyama, Pattullo, Young and Crawford.

Box Score

AB.	R.	H.	P.O.	A.	E.
Parkinson 1b.	4	3	2	6	0
Roth lf.	4	2	1	0	0
Buhlert 3b.	4	2	3	1	0
Jarvis p.	3	2	3	0	1
Foster c.	3	0	1	8	4
Bonnell rf.	1	0	0	0	0
Rainbow rf.	3	0	0	0	0
Bourke 2b.	1	0	0	1	0
Kirk cf.	2	0	0	1	1
Talbot ss.	3	0	1	2	0

Stolen bases: Bourke, Buhlert, H. Pattullo, Ellison.

Three-base hits: Parkinson, Byrde. Struck out: Byrde, 11; Pattullo, 2; Young, 4.

Bases on balls: Pattullo, 4; Young, 1; Byrde, 1.  
Wild pitches: Byrde, 4; Young, Pattullo.

Passed balls: Foster, 3; Crawford. A feature of the game was a double play in the first inning by Purdy with the bases full, when Kelowna collected but one run off four hits, and the scoring of three runs in the third inning without a hit, two errors and four bases on balls forcing in three runs.

Tomorrow (June 3), in connection with the Rutland Rally Day sports, Kelowna meets Rutland at 2 p.m., Winfield playing Oyama at 5 p.m.

### LACROSSE

#### Kelowna Decides To Enter Valley League

At a well attended meeting of the Kelowna Lacrosse Club, held at Chapin's on Friday night, it was decided to enter the Okanagan Valley competition this season, and delegates consisting of the President, W. W. Pettigrew, and Dr. Lloyd Day were appointed to carry Kelowna's views on the operation of the League to the annual meeting of the Valley organization.

The Treasurer's report showed a small balance in hand from last year's operations, which, considering the lack of interest taken in lacrosse, was satisfactory. Considerable equipment in the way of sweaters and sticks was also available. In this connection, it was decided to issue an appeal through these columns to those who had in their possession any Kelowna lacrosse sweaters or sticks to turn them in to any member of the executive, as there would be insufficient funds available for the purchase of these necessary articles of equipment, and it was felt that there was a considerable amount at various points in the vicinity which could be collected.

Delegates to the Valley League meeting were instructed to press for home-and-home games, total goals to count, and the series to be run on the basis of an elimination contest for the Rowcliffe Cup. With the entry of Lumby, making a four team league, this recommendation will probably be amended to read home-and-home games with each club entered.

Officers for the season were elected, all by acclamation, as follows: Hon. President, Geo. Rowcliffe (re-elected); President, W. W. Pettigrew (re-elected); Secretary-Treasurer, J. G. McKay (re-elected); Manager and Captain, Dr. Lloyd Day; Transportation Committee, R. Parkinson; Advertising, E. Johnston.

**Preparation Of Schedule Held Up By Armstrong**  
Owing to the failure of Armstrong to send any one to the Valley League meeting called for Sunday night at Kelowna, the annual meeting could do little towards arranging details for the season's activities. President Fred Murray of Armstrong could not be located, while the secretary, Earl Johnston, was called out of town. Delegates from Kelowna, Lumby and Vernon were on hand, however, Lumby stating their intention of re-entering the lacrosse field after a lapse of about ten years. Located there is Clare McPhee, a former Kelowna star home player, and the Lumby boys are enthusiastic over their entry into the league.

After a wait of over an hour, the delegates decided that the best method was to call another meeting in Vernon this week, and to have some one representing Armstrong present so that a schedule could be drawn up and the season commenced at the earliest possible date. All the delegates present were of the opinion that with a four team league embracing Armstrong, Kelowna, Vernon and Lumby, each entry would meet the other teams in the league once at home and once away, making six games in all to be played by

each team entering. As Lumby were able to stage home fixtures on Sundays, and were agreeable to travel on Thursdays, the schedule could be cut down to possibly five weeks, and it was the feeling that Thursday, June 9, was the logical date for the opening games, when all four entries would play their first fixtures.

### TENNIS

#### Officials For Interior Tournament

One of the features of the Interior championships which will be staged on the courts of the Kelowna Lawn Tennis Club during the week of July 11 to 16 is the re-engagement of two officials who in the past have done a great deal towards the successful staging of this important event in Interior tennis. Mr. J. C. Brown, of Victoria, has again consented to act as referee, while Mr. R. H. Hill will again undertake the onerous duties of secretary, which he has carried out with great credit on former occasions.

Considerable activity has been manifested on the courts of the Harvey Avenue club in preparation for the forthcoming championships, and with the advent of more seasonable weather the courts have been in demand by members, over fifty turning up to play at a recent session. The club pavilion, which has been repainted, presents an attractive appearance and is used by spectators who wish to follow the play on the courts.

#### Mixed Handicap Tournament

On May 24 there were 32 entries in the mixed handicap American tournament, which resulted in Mr. and Mrs. V. D. Lewis, winners in B group, defeating Capt. and Mrs. Bull, leaders in A group, 6-2. Play continued from 1.30 to 6.30 p.m., the prizes being distributed by Mrs. R. H. Stubbs. It is proposed to stage a similar competition on Friday, June 3, as the holiday event proved very popular.

#### Kelowna Wins Matches With Salmon Arm

A team from Salmon Arm journeyed to Kelowna on Friday, consisting of Mrs. Davidson, Miss Freeman, Dr. Beech, Major Bivar, F. H. Burn, R. Fortune, R. Kennedy and W. S. Richards, who were opposed by W. E. Adams, A. E. Hill, R. H. Hill, D. Loane, H. G. M. Gardner, R. H. Stubbs, Mrs. H. G. M. Gardner and Mrs. Tallyour. The local players were successful in winning, 11 matches to 2, with one match unfinished. A return match will be played at Salmon Arm probably on Friday, June 3.

**Okanagan Valley Tournament**  
The Valley tournament will be held at Vernon Country Club courts on June 23, 24 and 25.

### FOOTBALL

League Standing	P.	W.	L.	D.	Pts.	Goals For	Goals Against
Kelowna	6	4	1	1	9	33	9
Vernon	4	2	2	0	4	10	22
Lumby	4	0	3	1	1	5	17

#### Kelowna Wins From Lumby

With "Turk" Lewis playing goal, and Jimmy Burt leading the Kelowna forwards, the local soccer eleven added another victory to their credit this week when they made the journey to Lumby and emerged successful by a score of 5-0. Burt, with three goals, and Fisher, two, were the scorers for Kelowna.

Kelowna is due to play at Vernon tomorrow (June 3) in what may prove to be the deciding match of the series. If the locals win, their position at the head of the league standing will be secure, as they have but one other fixture, Lumby at Kelowna on June 12, to play after tomorrow. On the other hand, should Vernon again win against Kelowna, and also take the remaining three fixtures against Lumby, they would have 12 points while Kelowna could only secure 11.

A draw tomorrow would make the outcome still doubtful, unless Kelowna won from Lumby the following week, but a win for the locals would give them possession of the Whiten Shield for another year.

The following are league fixtures for the coming weeks:—

June 3—Kelowna at Vernon.  
June 9—Vernon at Lumby.  
June 12—Lumby at Kelowna.

In the Lumby Cup knockout series, Vernon plays at Lumby in the final on

10 ACRES, 6 in bearing orchard, 9 years old. \$2,000

On terms; only
